

THE BLAIRMORE ENTERPRISE

VOL. XIII, NO. 15.

BLAIRMORE, ALBERTA, THURSDAY, APRIL 13, 1922.

\$2.00 YEARLY

TOO PROUD TO WHITEWASH AND TOO COSTLY TO PAINT

This is why so many buildings in the West have remained unprotected during the last few years.

BUT TIMES HAVE NOW CHANGED!

Paint and Paint Materials have come down to such a price that no-one can afford not to paint and to leave their buildings depreciate at the mercy of the elements. When you buy

BAPCO PURE PAINT

DON'T TAKE ANY CHANCES

You know what you are getting. You know it has the covering capacity and the lasting quality. We have sold it to you for twelve years. BAPCO PURE PAINT is made in Victoria, B. C., and is especially well adapted to the climatic conditions of the West.

The Price is Right Every Tin Guaranteed) \$5.25 per Imp. Gal.

Blairmore Hardware Co.
BLAIRMORE, ALBERTA

COUNCIL EMPLOYS NEW AUDITOR

The regular fortnightly meeting of the town council was held on Monday night, when Mayor McLeod, Councilors J. Angus McDonald, Owen Morgan, J. A. McDonald and A. Morency were present.

The minutes of the previous meeting were approved as read and the following accounts were passed for payment, subject to approval by committees: West-Canadian Collieries for March light current \$108.80, W. Lounie \$98.60, Petty cash \$24.10.

On motion, J. A. McDonald was appointed deputy mayor for the period April 1st to June 30th.

J. A. McDonald—Morency—That the bid of John Aschacher for the purchase of Lots 25 and 27 in block 8, Plan 3280, at 25 per cent reduction of amount of tax arrears be accepted. Carried.

Morency—J. A. McDonald—That the Blairmore Arena Limited, be granted water supply at the rate of \$50 per annum. Carried.

J. A. McDonald—Morency—That from this date wages for laborers employed by the town be at the rate of 50 cents per hour. Carried.

Amendment to By-Law 15 received first, second and third readings and finally passed.

Four applications were received for the position of auditor, and that of George F. Johnson, of Fernie, was accepted. Auditor to make regular quarterly returns.

Some discussion took place as to the advisability of the council offering special inducement to the government in the way of site, taxation exemption, etc., for the proposed new court house, but no definite action was taken.

ANNIVERSARY SERVICES A SUCCESS

Success attended the anniversary programme at the Union church. On Saturday morning and evening last the church was packed to standing room and all enjoyed the able discourses delivered by Rev. G. D. Armstrong of Macleod. Rev. W. T. Young, the pastor, assisted at both services. Rev. Mr. Armstrong also addressed the Sunday school in the afternoon. At the morning and evening services a full choir attended. In the morning a solo was beautifully rendered by Mrs. A. M. Elliott, entitled "This is My Task," while in the evening an anthem from the choir was well rendered.

On Monday evening at 8 a concert programme entertained the local. The program was rendered by Bellevue talent, assisted by Mrs. L. L. Morgan and Mrs. J. R. Smith, of Blairmore. Solos, quartettes, duets, by the Bellevue friends were well received, as was the accompaniment by Miss M. Williams, piano and violin solos by Mr. Moser. The solo by Mrs. Morgan brought down the house and she kindly responded to an encore, both being accompanied by Mrs. Smith. The feature of the programme was a lecture by Rev. G. D. Armstrong, B. A., on the subject of "The Problems of The Day," and all who had the pleasure of being present felt well repaid for the hour spent listening to his discourse. Full of deep thought and coupled with no small amount of wit and humor, the lecture throughout was pronounced the best ever heard, and the hope was expressed from all sides that the time would not be far distant when the Rev. George Armstrong would again appear on a Blairmore platform. The chair was occupied by the pastor, Rev. W. T. Young.

Following the programme, refreshments were served by the ladies and a real social hour was spent.

Resolutions were passed, thanking the preacher of this anniversary occasion, also the friends from Bellevue and Blairmore (particularly Mrs. Morgan), for their kind services. Resolutions were moved by L. H. Putnam and F. M. Pinkney, and unanimously endorsed.

The plate collections at the Sunday services amounted to about \$126, while upwards of \$180 was netted from the anniversary proceedings.

SHOOTS AT GAMBLING GUEST

On of the long-looked-for outcomes of the wholesale gambling that has been going on through The Pass came to pass at Hillcrest at a late hour on Saturday night, when a frequenter became the victim of a man with a gun.

A Grecian, best known as "John The Greek," had been engaged with a number of men around a gaming table, where one of the guests had the misfortune to lose all his \$50. Being obliged to retire for more money to continue in the game, the man retired, but soon returned. On making an alarm at the door, a voice from within warned him to keep away, but on repeating his appeal for admission he was met by a volley of bullets from a gun inside, the missiles apparently coming through the door at random. One of the bullets entered the man's arm near the elbow. An alarm was made and the police were soon on the scene. While the victim was being examined by the doctor, the Greek was taken in charge by the A. P. P. and lodged in the cooler at Frank, where he was held till Monday to appear before Justice Graham to answer the charge preferred against him. After a preliminary hearing, the Greek was remanded for trial, being let out on bail fixed at \$3000.

Saving \$1,000

Through trifling economies, you can accumulate one thousand dollars in a few years.

By persistently and regularly depositing \$2.00 a week with us—with interest at 3%, compounded semi-annually—you will have \$1,211.43 to your credit in ten years.

Biggest Pay-Day in Pass History

Today the mining camps throughout the Crows' Nest Pass are enjoying the largest three-week pay day in the history of coal mining in West-

ern Canada. For several weeks previous to cessation of work, all mines were running at capacity and the output was considerably above normal. This coupled with the highest wage in the history of the industry makes this pay a big one.

WORLD HAPPENINGS BRIEFLY TOLD

Nova Scotia obtained a harvest from the sea last year valued at \$9,000,000, according to the report of the commissioners of fisheries. The yield for the previous year was valued at \$15,000,000.

Hon. John Hart, provincial minister of finance, William Ivel, and H. C. Hall, were named as a delegation to urge the Federal Government to continue construction of the Esquimaux dyke.

For the stowed purpose of making McPherson, Kan., a dry city, the city commission has enacted an ordinance laying down strict sanitary rules, the violation of which result in a heavy fine.

A unique taxicab organization directed and operated solely by women, has been formed in Vancouver under the presidency of Mrs. Ralph Smith, member of the Provincial Legislature. The company has been given a provincial charter.

According to a Reuter cable from Nairobi, British East Africa, 37 natives who took part in the recent uprising which was put down by native troops were sentenced to terms ranging from three months to two years rigorous imprisonment.

His Excellency the Governor-General Baron Byng of Vinny, has notified George Black, M.P. for the Yukon, that he intends to visit that territory this summer. Captain Black so telegraphed city authorities at Dawson City, Y.T.

Five of the nine men held by the coroner's jury as responsible for the collapse on January 28 of the Knickerbocker Theatre, Washington, with the loss of 98 lives, were indicted by the grand jury on a charge of manslaughter with the four other men exonerated.

Three men were killed and thirty others injured when a bomb exploded at a business men's banquet in the Democratic Club at Budapest. The explosion occurred just after 600 invited guests had been seated, but before the members of the opposition party had arrived.

The Federal Treasury was enriched by \$1,823,071.71 in coal royalties from Dominion lands from April 1, 1906, to March 31, 1921. During the same period, coal royalties from school lands in Saskatchewan and Alberta totalled \$135,849.55. This information was tabled in the House of Commons.

The Council of the Empire Press Union, in London, passed a resolution deploring the lack of adequate telegraphic communication and urgently pressing the Government to immediately carry out or support some scheme for an imperial cable obtaining general approval throughout the empire.

A Relic of 1641

Wreckers Salvage Ancient Vessel in Harbor at Larkspur
Remnants of a wreck believed to date back to a Dutch-Spanish battle in 1641, have been brought to the surface by salvage workers in Larkspur Harbor.

Four ancient cannons, each seven feet long with a three-inch bore have been salvaged, and these have been supplemented by massive oak timbers, which are in a good state of preservation.

It is believed that the wreck is that of a Dutch warship which, with three East Indianmen was attacked by ten armed ships of Dundee (then Spanish), in Breaux Sound, on June 13, 1641. After a fierce engagement, two of the Indians were sunk and the third escaped, while the Dutch warship was compelled to surrender.

DIET NOT EVERYTHING IN KEEPING HEALTHY

Your table may be loaded with food delicious and wholesome, yet you don't get strong. What's the trouble? The liver is lazy, stomach is overloaded, the bowels are not active. Relief is quickly supplied by Dr. Hamilton's Pills. They make weak sickly people strong and well because they keep the system clear of impurities. Those who regulate the system with Dr. Hamilton's Pills don't have indigestion or constipated headaches, they feel enlivened all over, because their system is kept in smooth running order. To revitalize and stimulate your whole being, to shake off lethargy and friendliness, nothing compares with Dr. Hamilton's Pills, which certainly bring good looks, good spirits, good health, 25c all dealers, or The Cataractons Co., Montreal.

Why Irish Are Fighters

A certain diet specialist feels that the Irish are a bellicose people, largely because they eat little meat but take a good deal of butter milk and vegetables. The Balkan nations also are great fighters and at the same time are great consumers of quantities of butter milk. He thinks if the Irish were to change their diet they would become much more peaceful. It seems strange how good an argument can be formed out of a few non-essential facts and a vivid imagination.—Christian Guardian.

KEEP BABY WELL IN THE SPRING

Mothers who have little ones in the house during the Spring, a time of great activity, at this season conditions make it necessary to keep the baby healthy. He is often confined to over-heated and badly ventilated rooms and catches colds which rack his whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given to keep his stomach and bowels working regularly. This will prevent colds, constipation or colic, and keep baby well. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

World's Available Water Power

A new French estimate of the world's water power resources credits the United States with 30,000,000 available horsepower; Canada with 25,000,000; Norway with 7,500,000; Sweden with 6,750,000; and Italy and Spain with about 5,000,000 each.

Chocolate and coconuts are used as currency in parts of the South American territory.

USE SLOAN'S TO EASE LAME BACKS

YOU can't do your best when your back and every muscle aches with fatigue. Apply Sloan's Liniment freely, without rubbing, and enjoy a restorative glow of warmth and comfort. Good for rheumatism, neuralgia, sprains and strains, aches and pains, stiffness, sore muscles, stiff joints and the after effects of weather exposure. For forty years Sloan's Liniment has been a household name. Ask your neighbor. Keep Sloan's handy. At all drug stores—35c, 70c, \$1.40. Made in Canada.

Sloan's Liniment

Failure Through Ignorance

Believe in Yourself and You Will be Successful

If you consider yourself a worm of the dust, you must expect people to trample on you. If you make a door-mat of yourself, people are sure to wipe their feet on you.

Many men fail through ignorance of their strength, but through knowledge of their weakness.

You may succeed when others do not believe in you, but never when you do not believe in yourself.

The curiosity of him who wishes to see fully for himself how the dark side of life looks is like that of the man who took a torch into a powder mill to see whether it would really blow up or not.

Purple Taboo

At a marriage ceremony in Japan a dress of purple color, is taboo, lest the mutual love of the bride and groom be most liable to fade.

Hail to the Silk Hat, the Herald of Spring.

Nimble fingers, a sense of color, and by that mysterious alchemy the key to the secret of which only a woman holds, a width of ribbon is transformed into an adorable chapeau, becoming wondrously to the fair face beneath it and harmonizing perfectly with the tints of its wearer's eyes and hair.

The wood shades are much shown for the smaller hats especially, while the oiled seems to be popular for the large hats for southern or midsummer wear.

Western Land Sold by Government

Money Will Be Held in Trust for the Province

From September 1, 1905, to December 31, 1921, the Federal Government sold 5,538,578 acres of land in Saskatchewan for \$16,618,107, and school lands in the same province with an acreage of 1,457,274 for \$26,967,218 in Alberta, during the same period the Government sold 3,944,318 acres for \$11,772,294, and 954,082 acres of school lands for \$15,304,209.

Spend your money at home, thereby helping your own town and local merchants.

Externally or Internally it is Good—When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissue, touching the seat of the trouble and immediately affording relief. Administered internally it will still the irritation in the throat which induces coughing and will relieve affections of the bronchial tubes and respiratory organs. Try it and be convinced.

Wicks

If you dislike the smell of the wick as it burns in the lantern oil it is in vinegar and thoroughly dry before using.

Minard's Liniment prevents Spanish Flu

Regina Cattle Sale Very Successful

Price-Winning Northern Bull Sells For \$4,100.00

Considering financial conditions, the directors of the Saskatchewan Cattle Breeders' Association are very well pleased with the prices obtained at the pure-bred cattle sale recently held in Regina. Pure-bred females did not sell as readily as pure-bred bulls. The demand for bulls, however, was steady, and the bidding brisk.

An average of \$200.00 each was secured for 85 Shorthorn bulls, and the top price for Shorthorns and for the sale was \$1,100.00, which was paid for Mars Avon 3rd, sold by a Prince Albert man and purchased by a man from St. Louis. This bull had been a prize winner at the International last fall.

The average price for Hereford bulls was \$162.00 on 39 head, with a top price for this breed of \$276.00. Aberdeen Angus bulls sold at an average price of \$170.00 and the top price of \$735.00 was paid for Broadus Blackburn 7th, sold by G. N. Buffum, of Bechar, and purchased by Mr. Hume, of Manitoba.

Over 200 head were sold through the ring, and the breeders' sale had well bred bulls and had them in good condition were well satisfied with the prices obtained. The better bull campaign is having its effect in increasing the demand for real good bulls.

Separation, But No Alimony

A peaceful, quiet separation, no damage done, everybody happy again—that's the situation when you divorce your corns. Try Putnam's Corn Extractor. Acts like magic, no pain, no failure, success every time. Refuse a substitute for "Putnam's," 25c everywhere.

THE WORLD'S GREATEST HEALER

Nothing else known to science performs the same marvellous healing and dispels disease from the tissues as Zam-Buk does. This pure herbal balm takes the fire out of a wound or sore, kills and repels germs and grows fine new skin. Zam-Buk is acknowledged

THE WORLD'S GREATEST HEALER

The average wage among British miners is now 157 per cent. higher than before the war.

A Household Medicine.—They that are acquainted with the sterling properties of Dr. Thomas' Electric Oil in the treatment of many ailments would not be without it in the house. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is an inexpensive medicine. So keep it at hand, as the need for it may come most unexpectedly.

Radio Telephones in B.C.

A radio telephone service for the British Columbia interior, for coast-wise vessels and deep-sea ships as far out as 2,500 miles at sea has been inaugurated. It is planned to give world news, concerts and speeches to distant parts.

A suit of armor made for a boy of seven is soon to be sold by auction in London.

COULD HARDLY STAND AT TIMES

Hips, Back and Legs Would Have That Tired Ache

Everett, Washington.—"For several years I have had trouble with the lowest part of my back and my hips and my legs would ache with that tired ache. I could hardly stand on my feet at times. I was always unable to do my work although I did not feel good. I saw Lydia E. Pinkham's Vegetable Compound advertised and having heard several people praise it I decided to try it. I feel first-rate at the present time. It has done wonders for me and I keep it in the house right along. I always recommend it to others who are sick and ailing."—Mrs. J. M. SUMNER, 4032 High St., Everett, Washington.

To do any kind of work, or to play for that matter, is next to impossible if you are suffering from some form of female trouble. It may exhaust your back and legs to ache, it may make you nervous and irritable. You may be able to keep up and around, but you do not feel good, you are aching and "no good" feelings dispirit.

It has done this for many, many women; why not give it a fair trial now.

BELTING FOR SALE

All kinds of belting, new and used, shipped subject to approval of the U.S. new rubber belting guaranteed quality, twenty cents per foot. F. J. BELTING CO., 115 York St., Toronto, Ont.

First, Doctors — Then a Skin Specialist Then a bottle of D.D.D.

We shall publish every week for the benefit of skin sufferers in this section a list of letters from Canadian physicians and others of prominence—all heartiest sources of relief from skin trouble.

A sentence or two from a letter from J. W. Carr, St. Michael's Avenue, Toronto, a man of standing: "I have been a sufferer for two years with eczema on the face. I tried three or four different doctors, but no special benefit. I used one bottle of D.D.D. and that's all. Today I am perfectly well."

If you wish to try a bottle of this D.D.D. that Dr. Carr found so remedial, you can guarantee relief on the first bottle, or your money back. Stop your skin trouble today. Get a bottle. Try D.D.D. soon.

D.D.D. The Lot for Skin Disease

If you cannot call at a local dealer, write to the D.D.D. Laboratories, Dept. 10, 1000 University Ave., Toronto, Ont. They will send you free trial bottle if you return the bottle, plus merely pay for postage and packing.

Mr. Jenkins Took a Cracked Club To Tame Lions

The exhibition ended rather badly. It very nearly was a big day for the lions and a sad day for Mr. Jenkins—all for want of proper care in getting ready.

Many a man who has business to do and a living to make and a job to fill is as careless how he feeds his body as Mr. Jenkins was in picking out a club.

Some foods are too heavy, some are too starchy, many lack necessary elements and so starve the body—and many load the system down with fermentation and auto-intoxication.

Grape-Nuts helps build health and strength. It contains the full richness of wheat and malted barley, including the vital mineral elements, without which the body cannot be fully sustained. Grape-

Nuts digests quickly and wholesomely. Served with cream or good milk, it is a complete food—crisp and delicious.

Grape-Nuts is just the food for those who care to meet life's situations well prepared in health. Order Grape-Nuts from your grocer today. Try it with cream or milk for breakfast or lunch, or made into a delightful pudding for dinner.

Grape-Nuts—the Body Builder

"There's a Reason."

KIND OF BOYS WANTED

Boys are always in demand because they are the material out of which men are made, and as first-class materials are always at a premium in every line of trade, so the boys who give promise of making first-class men are eagerly sought after. The boy the world wants today is one who can be trusted to handle money without any of it sticking to his fingers or finding its way into his pockets. He will take as much interest in the affairs of his employer as if they were his own and will stay fifteen minutes without being asked to finish a piece of work after the whistle blows and the men have quit work. He will be able to write a business letter, spell the words contained therein correctly, and total up a column of figures promptly and accurately. He will lift his cap as readily to his own sister when she enters the street as he would if she were the sister of some other boy; and he will not be ashamed to go to church with his mother, show her into her own pew and sit beside her during the service. He will be careful in making a promise and just as careful in keeping one. He will have sufficient backbone to say no to those who would lead him astray, and will have courage enough to own that he is striving to make a man of himself.—Selected.

HOW IT HAPPENED

Bob Edwards, M.L.A., tells an Alberta reporter what happened to his plebiscite amendment, as follows: "Oh, that? Well, I never expected for a moment that it would be carried. I am not such a scamp as that. All I wanted to do was to start the ball rolling on the subject and get people thinking. My knowledge of human nature is too keenly developed to expect members not to consider themselves first. The fact that only one other member, Dr. State, voted in favor of the amendment does not alter the fact that a large proportion of members on both sides of the house had expressed themselves freely as being strongly in favor of both a plebiscite and a beer policy." "And how do you account for their timid, pusillanimous actions in the house?" "Let the reporter."

"That's an easy one. The U. F. A. members were afraid of the women. However, they are not going without their reward. The University of Alberta, it seems, has decided to confer the academic degree of S.F. on every blessed one of the members of the legislature except Dr. State and myself."

"What degree is S.F.?" "Suffrage First. I might say that the attorney-general's liquor bill has brought unalloyed joy to the bootlegging fraternity, who have now a clear and open field. Vast fortunes loom on the horizon. Indeed, it is understood that the Benevolent and Fraternal Order of Amalgamated Bootleggers of Edmonton have extended an invitation to Premier Greenfield and his cabinet to attend a luncheon to be given in their honor at the Macdonald hotel on the first of April. The Rev. Mr. Bishop has been asked to say grace."

"To change the subject," said the reporter, "how is business up in Edmonton?"

"Oh, just so-so. The bootleggers and druggists are rolling in it, of course, and the man who has the empty bottle concession at the Macdonald hotel is seriously thinking of merging with the Bank of Montreal, but outside of these worthless live cash trade of Edmonton is almost wholly

Successful Candidates In

Mine Rescue Exams

Following were the successful candidates in Mine Rescue Work, conducted by Duncan McDonald, of Calgary, superintendent of mine rescue and first aid for the Province of Alberta, at Coleman, Blairmore, Bellevue and Hillcrest last week:

Coleman—Robert Parker, Fred Atkinson, Jas. Kellock, Ernest Barnes, Nelson Fleming, John McLaren, Robert W. Baker, James Yates, Tom Jackson.

Blairmore—William Turner, David Marlat, Daniel Rhodes, William Whitelaw.

Bellevue—Harold Pader, John Patterson, Horace Davis, George Crawford, Dominic Graminco, Gustave Vessac, Joseph Kilpatrick.

Hillcrest—Harold Richards, Frank Pearson, E. B. Jones, Russell Morse, Richard Clarke, James Cardie, Chas. Evans.

Cantata Wednesday Night

Owing to the Rebekahs Ball coming on Thursday night next, the Easter Cantata, that was to have been put on at the Union Church that night by the Bellevue Church Choir, will appear the night previous. Keep this date open — Wednesday, April 12th, at the Union Church at 8 o'clock.

STILL TALKING WAR

Who is responsible for keeping alive the fear of an impending war? Why, in this year of peace, are we, burdened to exhaustion with war taxes, spending \$900,000,000 for an army and navy? With nearly every man not concerned with military affairs protesting against the tax rate, why will not Congress cut down with unsparring hand the enormous sums called for to maintain needless yards and army and navy forces so far in excess of the demand of this time of peace? How can it be good politics to antagonize the average voter and continue to hand him with unnecessary tax bills? We have just seen a cabled message to Dr. Francis E. Clark, president of the World's Christian Endeavor Union, sent upon his arrival recently in Germany, in which he said, "Militarism keeps dead. I have seen scarcely a single soldier in cities that used to swarm with them. The desire of the common people is only for peace, and war is loathed. All are grateful to America for feeding their children."—Our Dumb Animals.

PRACTICAL ECONOMY

From the Editorial Committee's fifth annual report to the Dominion government we learn that during the past year 11,540 requisitions for printing, binding and stationery passed through the office of the committee, on many of which the specifications were changed in the interests of economy. "It is gratifying to observe that the public departments after four years' acquaintance with the scope of the Editorial Committee's work, submit their manuscripts in much more condensed form than formerly," state the committee. "A reduction from 210,007,404 printed pages in 1915-15 to 25,522,968 in 1920-21 is in itself a noteworthy achievement." This saving alone in the annual reports is highly meritorious, and more than justifies the creation of the committee.

in the hands of the Greeks and the Chinks. Moonshiners drive into town daily with their produce, just like an honest old farmer, and sell their stuff to bootleggers and druggists for \$15 a gallon, after which it is colored, flavored and bottled. Not only do the labels and capsules appear correct to the eye of the most seasoned bootlegger, but in many instances even the corks are stamped with the familiar names of J. Dewar, Sandy Macdonald and so on, thus completing the illusion. If the Rev. Bishop can catch even two or three of these masters of craft, he will prove himself a very remarkable person."

LETHBRIDGE OPPOSES

REMOVAL CROWS TRAINS

Reconsidering the question of the removal of the daylight trains Cardston-Lethbridge to Crows' Nest, the Lethbridge Board of Trade has passed a resolution protesting against the removal of such trains and instructing the railway committee to prepare the case for the board.

The proposition was brought up by G. F. Bletcher, of the Great West Rubber & Footwear, Ltd., who said the former resolution has been passed hurriedly and without the proper consideration. The removal of the daylight train, he claimed, would be a decided business detriment to Lethbridge, as it would give Calgary an even break with that city in a territory rightly belonging to Lethbridge. The following resolution has been forwarded by the Board of Trade to the Board of Railway Commissioners:

"Lethbridge Board of Trade: In session today passed strong resolution protesting against granting the C. P. R. right of cancellation of the present daylight trains—Nos. 535 & 536—between Lethbridge and Crows' Nest points. This train is vital to properly serve travelling and quick transportation from Lethbridge wholesale and retail houses to mining and other interests in the Crows' Nest district. Its removal would destroy business connections established through this train service. Our Board requests that you defer granting of permission to C. P. R. until all interested parties have an opportunity to present objections."

MAY 24 WILL BE CELEBRATED IN OLD STYLE AT COWLEY

As in years gone by, Cowley will hold its annual celebration on the 24th of May.

A meeting was held in the Cowley hotel recently, when it was unanimously decided that the time was more than opportune for a repetition of the great old events that have in the past made Cowley the live big spot on the map on May the 24th.

A committee was appointed to draft a programme and make all other necessary arrangements and to leave no stone unturned that will help to make the 1922 celebration the best ever.

The newly acquired recreation grounds are already being got into shape. A polo field, ball field, encircled by a half-mile dirt track, is the plan to be followed. Provision is being made for horse racing, polo match, ball game and a dance. The North Fork polo team extends a challenge to any polo team that desires to lock horns with them. The old war-horses, Milvain, Burns, Connelly and others are still able to set a fast pace.

Fined For Obtaining Relief Under False Pretences

For obtaining relief by false pretences in the way of a cash grant of fifteen dollars, a man named Link, of Bellevue, appeared before Mr. Justice Gresham at Bellevue last week and paid a fine of \$50 and costs.

At the time Link applied for relief he was found to have \$1600 on deposit in the post office savings bank. In addition to the fine, he was ordered to pay back the full amount of all relief received.

This should have some effect on those who are known to have been in the habit of seeking relief under similar conditions, and we learn that the police and other authorities are on the alert and will have stiff penalties meted out to all offenders.

Link was grabbed when he presented himself to one of the town people to have a card made out for his passport to Austria. He had \$1800 on his person at the time.

A fish hatchery for Waterton Lakes is being mooted.

Successful Candidates

In First Aid Exams

Following is a list of candidates who were successful in the examinations in First Aid conducted at Hillcrest on Thursday last under the auspices of the St. John Ambulance Association:

Seniors—John Mackie, John Dudley, John Howcroft, Richard Clarke, Joseph Lott, David Hutchison, Joseph Boyle, Eric Morley, George Lothian, William Ironmonger, James Gorton, junior, Robert Massey, Charles Evans, Raymond Anderson, Harry Instone (second year), Edward B. Jones, Ernest Barnes, Russell Morse, Richard Price, James Cardie, Ed. Royle (third year), Archie McCulloch, Frank Pearson, Joseph H. Atkinson, John W. Makin (third year).

Ladies—Elizabeth Fox, Alice Royle, Martha Reid, Jewel Henderson, Bertha Thompson, Belle C. Selson, Jean Jeffries, Mabel Instone.

Junior Boys—William Makin, Clarence Smith, Alex. Baines, Joseph Hunter, Alex. Grant, Charles Makin. Lecturer—H. A. McDonald, M.D.

Examiners—Dr. Davis, of Coleman; and Duncan McDonald, of Calgary.

Instructors—J. W. Makin, H. Instone, Mrs. M. Instone.

Secretary—H. Instone.

Superintendent—Ed. Royle, of Mine Rescue Car No. 1.

A CREED PREACHED BY MILLIONS

The creed that millions of us practice—which we do not recite, but do reveal in our daily lives. It runs like this:

I believe in the dollar almighty, maker of nearly everything desirable. I believe in seven per cent—and as much more as I can safely get. I believe in success—measured by salary.

I believe in getting ahead. If this means getting ahead of the other fellow—well, I'm sorry for him, but it cannot be helped.

I believe in religion, but not in too much of it. I also believe that business is business.

I believe in doing good in the world but not to the extent of doing anything that I really do not want to do, and not to the extent of giving until it hurts.

I believe that my own sins which are not many, ought to be forgiven by a just and merciful God. But if anybody sins against me he had better look out.

I believe in loving people that love me, and in being good to people who are good to me.

I believe that most people are not worthy of considering, but that a few of them are unquestionably worth while. I, of course, am one of the few.

I believe that all this talk which we hear nowadays about a coming brotherhood of mankind is sheer nonsense. When you try to tell me that a Negro or a Jap is my brother you make me sick.

I believe first, last and always in having a good time. I sincerely hope that my good time will not rob anyone else of his good time, if it does—well, once more, I'm sorry, but it cannot be helped.

REV. MAJOR WALKER ARRIVES IN ENGLAND

(From The Overseas Daily Mail)

Suffering from throat and face affections owing to the coldness of the atmosphere in his church, which is situated 4,500 feet above sea level, on the famous Crows' Nest Pass, Alberta, the Rev. Maj. Walker has arrived in England. Mr. Walker, who has just completed eighteen years missionary work in Western Canada, says the wine used for Holy Communion occasionally became frozen, the temperature often being forty degrees below zero.

Rev. Walker and family left here recently and returned to England. The above article arrived here this week and undoubtedly refers to the local parish that Mr. Walker had charge of.

The Weekly Provincial News Bulletin

Issued by the Publicity Commissioner,
Government Buildings, Edmonton.

A number of new appointments of importance to the farming and irrigator interests of Alberta have just been made by George Hoadley, minister of agriculture. From now on all agricultural agents will be under the direct control of S. G. Carlyle, provincial livestock commissioner.

W. J. Stephens has been appointed commissioner of field crops and will occupy the position formerly held by the superintendent of the seed and weed branch of the department of agriculture. Mr. Stephens was for a number of years, principal of the Clarholm School of Agriculture and has made a special study of the marketing and growth of seeds.

C. D. McMillan, at present in charge of the demonstration farm at Stony Plain, will act as agricultural agent, with headquarters at Stony Plain.

G. W. Fletcher, in charge of the demonstration farm at Athabasca Landing, will also act as agricultural agent for that part of the country with headquarters at the farm.

H. W. Scott, who has been agricultural agent of the Sedgewick country for a number of years will continue to act in that capacity at the Sedgewick demonstration farm.

R. Austin, who has been in charge of the demonstration farm connected with the Agricultural School of Gleichen and lecturing on livestock at the institution, will now also act as agricultural agent of that district.

M. L. Freng, who has been in charge of the branch of the agricultural department at Lethbridge for some years and has made a specialty of irrigation will continue to act as agricultural agent, stationed at Lethbridge.

With the purpose of giving the highest class of service available, states Mr. Hoadley, Prof. Murray lately in charge of the Noble Foundation, and recognized as one of the best agricultural experts in Canada has been secured to act as agricultural agent for the drought area, with headquarters at Medicine Hat.

The agricultural schools at Gleichen and Youngstown, states the minister, will be closed for the time being.

Mr. Freng is noted as an irrigation expert and working with Prof. Murray, these two men are expected to render splendid service to the dry country of this province.

Premier Greenfield is planning to put into effect a scheme whereby the members of the government side in the legislature will be able to study the workings of the various departments of the government in a more extensive way. These members have left with Premier Greenfield the task of grouping the different groups, each group to take up the study of one department, and to hold meetings with the minister in charge of that department. This suggestion was made by the members themselves.

Conferences were held during the past week between Hon. Alex. Ross, minister of public works, and the road engineers of the government from the different parts of the province, to discuss plans for the season's road program. The minister will shortly consider the appointment of the new Highways Board and Highways Commissioner. The appointment of the secretary of the new Bureau of Labor which is to be under Mr. Ross' department, will also be considered.

Residents of the Grande Prairie district are to vote on May 15 on the establishment of a municipal hospital district. At the same time a plebiscite will be taken to fix the location of the new hospital that will be built. Under a new amendment to The Municipal Act, the location of the hospital building in any hospital district may be settled by a separate

plebiscite, the hospital is to be located at the point receiving the largest number of votes.

New officials have been appointed on the Alberta and Great Waterways Railway to fill vacancies caused by resignation recently. G. S. McDonnell takes the place of S. A. Brand as auditor of traffic receipts and freight agent, while the position of chief clerk recently vacated by S. Armstrong, will be filled by Joseph Roberts. Both the new appointees have had an extensive experience in railway circles.

Premier Greenfield and Attorney-General Brownlee spent a few days last week at Victoria, B. C., recuperating from the strain of the session, and studying matters in connection with natural resources. They are going to Ottawa shortly to take up the question with the dominion government, when it is expected that negotiations for the return of the natural resources to the province will be opened.

Additions have been made to the regulations under the theatres act which will permit the provincial secretary to issue temporary licenses, in the case of theatres in other places than cities to proper and suitable persons, though they have not served the full apprenticeship period of six months. This temporary license shall be valid only until the person holding it is given an oral examination by the inspector.

Attendance at Theatres
Revenues from the theatres branch of the provincial government increased \$14,558.82 last year, according to the annual report of Howard Douglas, Chief Censor and Administrator of the Theatres Act. The increase in revenue from the amusement tax alone was \$10,393.79.

The total number of permits for the year for pictures was 2,011 covering 5,333 reels, a decrease of 100 reels from the preceding year. Of this number 420 were passed upon by the censor, the remaining being films which had already passed in all the provinces east of Alberta. Fifty-four features, consisting of 293 reels were condemned entirely and 372 eliminations made from other films. Reason for condemnation of films were classified as follows: Rough and brutal 12, vulgar & crime 16, immoral 15, travesty on religion, justice, or life, etc., 2.

During the year Mrs. H. A. Harbottle and Mrs. Jas. McCall were appointed to fill vacancies on the board of censors.

The attendance report shows that the total attendance for the year in the theatres of the province was 7,019,282 and the attendance daily was 22,497. The average monthly receipts from amusement taxes was \$15,091.59. The total revenue from all sources in the branch was \$189,136.89.

The Cream Buying Stations
Elimination of cream buying stations, as provided for in the amendments to the Dairyman's Act passed at the recent session, will not prevent farmers or creameries maintaining agents at local points to look after the shipment of cream. This is the statement made by officials of the agricultural department, after consultation with the officials of the attorney-general's department. The attorney-general's department has interpreted "cream buying stations" to mean, in the spirit of the act, stations for the sampling, grading, weighing and testing of cream, and that the elimination of these stations will be insofar as these services alone are concerned, and that there is nothing in the new legislation to prevent farmers, either individually or co-operatively, or the creameries themselves, maintaining someone at local points to look after cream shipments, to see that they are kept in proper

condition and get away on the trains at the proper time.

This was one of the difficulties which those opposed to the elimination of cream stations saw in the proposed new system, that it would mean that cream shippers would have no system of caring for cream at shipping points. But this difficulty has now been overcome.

The great object behind the new movement is to clear the channel between the producer of high grade cream and the market for high grade butter. In other words, to see that the farmer who takes the trouble to put the quality into his cream, and no person else can put it there—gets the benefit of his effort by being able to reach the highest market available. This will be accomplished chiefly by the fact that cream will now be graded by disinterested government graders at central points.

The old system of buying cream was estimated to have cost the industry \$250,000 annually. It is estimated that the restricted service at local points under the new amendments, should not cost more than \$50,000. In addition to this the government has appropriated \$40,000 for government grading, which makes a total of \$90,000 or approximately \$100,000. If these figures are ultimately borne out, it means a direct saving to the industry of \$150,000.

Furthermore, the dairy commissioner is confident that the improvement of quality during the first year of the new system will reach the value of \$150,000. This improvement in quality would increase and be cumulative from year to year, increasing the amount of revenue to the industry and resulting in the securing and holding of quality markets for Alberta butter.

It is pointed out by the dairy commissioner that since the year 1917 the percentage of "specials" or high-grade in the butter graded by the department, had fallen from 56.3 per cent to 7.7 per cent in 1921, with a consequent increase in "seconds" or low grade butter. In 1917 Alberta butter had reached the highest peak of quality in the history of the industry in this province.

The great fault has been, of course in the quality of the cream. It is pointed out that in 7653 churnings in 1921, 50 per cent showed more or less stale cream flavor, so that the responsibility of getting the production back to the high point of quality previously occupied rests with the farmer and producer.

Experience of both Saskatchewan and Manitoba has proven that the elimination of the cream buying stations has resulted in a marked improvement in the quality of the butter, and, with some years' experience of the new system there has been no demand in these provinces for a return to the old system.

Revenue From New Taxes
Approximately one million dollars is what the provincial government expects to get from the new taxes which have been approved in the legislature.

The new tax of two cents a gallon on gasoline is expected to yield at least \$200,000 after it comes into effect May 1st.

The doubling of the provincial tax on coal by another five cents a ton, will practically double the revenue from this source, which amounted to \$275,000 in 1921, when production was at low ebb. By imposing a tax on grain elevators the government will derive about \$45,000 from an entirely new source.

Higher rates established under the amusement tax will boost the collection of \$181,000 made in 1921 to well over \$265,000 this year, it is anticipated.

Increasing the taxation of the fire and life insurance companies from one to two per cent on premium returns, will bring in approximately \$220,000 this year instead of \$110,000 as in 1921.

The tax on express companies is advanced from \$250 to \$300 annually in Edmonton and Calgary with a higher schedule for smaller centres in the province. Telegraph companies are required to pay on a basis of two instead of one per cent, as in the past. This increase will mean an additional revenue of about \$15,000.

Under an agreement with the C. P. R. in respect to the tax on provincial mileage, the company will pay \$135 a mile instead of \$100 a mile in taxes, this meaning \$35,000 extra last year the railway mileage tax brought in \$138,700 from the C. P. R. alone; the tax on the Canadian National lines being still in dispute in the courts.

Under the new schedule of collections under the succession duties tax, branch, it is expected that the revenue will be about \$25,000 more this year. Restaurants and places of refreshments in cities and towns are required to pay a license of \$10 yearly, with \$5 for such places in villages. Liquor export concerns must pay a license of \$2,000 for each warehouse, with a surcharge of \$2 a gallon for all stocks over 1,000 gallons on October 1st. From these two new sources a revenue of probably \$75,000 will be obtained.

While the tax rate on joint stock companies was increased from twenty cents to forty cents for each thousand dollars worth over \$30,000 the new rate will not come into effect until after January, 1923, and the maximum remains at \$500, so many of the larger companies in the province will not be called upon to contribute any more than they at present are doing.

The Estimates
A statement given to the legislature by Premier Greenfield, during consideration of the estimates, showed that while there was an increase this year of \$107,296.73 on estimates for 1922, as compared with the estimates of 1921, yet there is shown a decrease of \$3,878,905.22 on the estimates for 1923 as compared with actual expenditures in 1921. The government estimated in 1921 an expenditure of \$25,471,190.15 but actually spent \$31,427,093.11 of which \$2,764,848.14 was for seed grain notes. Exclusive of this amount, the actual expenditures for 1921 totalled \$28,662,444.9, which was \$2,171,548.82 greater than estimated, and which was \$1,094,068.09 greater than the estimates for this year, which total \$27,568,380.

In some cases there have been increases in this year's estimates over the estimates of 1921. These increases are accounted for as follows:

Interest on public debt, increased by \$324,922.07, on account of increased borrowings of \$18,000,000 in 1921.

Civil government increased by \$19,000 which includes increase in clerical staff in the service, and appointment of the freight supervisor and establishment of his office and staff.

Legislation increased by \$50,000 caused chiefly by the consolidation of the statutes and increase in membership of the house.

Administration of justice—Increased by \$109,999 which includes further provision for reformatory and another's allowances, children's protection, and provincial police increases. There is a decrease of \$20,000 in the land titles office, which makes the net decrease \$89,000.

Education—There is an increase of \$121,000 in grants to schools and an increase of \$10,000 in grants to university (interest) but there is a decrease of \$30,000 in grants under section 4 of the schools ordinance, and a decrease of \$4,000 in cost of school texts, which makes the net increase in the education vote of \$151,000.

Agriculture—There is an increase of \$173,000 which includes provision for further agricultural agents, provisions for an investigation in southern Alberta, co-operative marketing, grading of cream, tree planting, extermination of pests and relief. There is also provision for operation of

farms at Poncha and Oliver which has been taken over from the health department.

Public Health—There is an increase of \$200,000 with provision for tuberculosis work, extension of work public health nurses, and for medical relief. There is also provision for the operation of the Poncha Mental Hospital, which has been taken over from the public works department.

Miscellaneous—Shows an increase of \$30,000 for external audit, \$60,000 for the superintendence fund and \$10,000 increase in assessment for workmen's compensation board.

Transference of certain branches from one department to another, as the transference of the mental hospital from the public works to the public health, and the transference of the Succession Duties and Lunatics Estates from the treasury to the attorney-general's department, has made certain apparent increases of expenditures in some departments and decreases in others.

What Mudgie Remembered

Mudgie, aged ten years, was much interested in the Mother Goose story, especially the story of Boop and her sheep. At Sunday school she was learning the fables. One day her mother asked her to repeat them to a visitor. Mudgie began: "Boop and her pigs in front—!" here her memory failed her. Her mother thought to prompt her. "For they—" she said. "For they shall come home," finished Mudgie triumphantly. "Dragging their tails behind them."

We are pleased to announce that the condition of Miss Christy McMillan, who was taken suddenly and seriously ill last week, is now much improved and that she is practically out of danger. Her sister, who is a nursing matron at a Prince Rupert hospital, arrived here via Vancouver on Tuesday morning and will stay a few weeks.

Land For Sale

Near Lundbreck

THE FOLLOWING LAND IS OFFERED FOR SALE AT A REASONABLE PRICE: WEST HALF OF SECTION 30 IN TOWNSHIP 9, RANGE 2, WEST OF THE 5TH MERIDIAN, SOUTH OF KEY RANCH.

NOTICE!

OFFERS ARE INVITED FOR THE PURCHASE OF THE W. H. HILTON HOUSE AND GARAGE AT FRANK, ALTA. HOUSE IN GOOD CONDITION, FIVE ROOMS, BATHROOM, WATER AND LIGHT FIXTURES, ETC.

The Blairmore Enterprise

Offsetting Competition

The thing for the merchants of this community to do in their own interests is to advertise faithfully, and to make their printed announcements interesting and helpful to those whose trade and favor are desired.

The serious competition of the retailers of this community are the big stores of the cities—those that send out catalogues and have mail order departments.

The poorest way to offset this competition is for our local merchants to remain silent. For them not to "speak up" is to give the mail order house a better chance to get business from this community.

A WORD TO THE PUBLIC

When you send your money out of this community you enrich the great shops and impoverish this community. Strengthen—not weaken—the merchants of this community. It will all be returned to you in the form of better service and better values.

Be Loyal to Your Own Community

Blairmore Lodge, No. 88, meets every Tuesday night at 8 p.m. in the Oddfellows' hall. Officers for the ensuing term: J. Patterson, N.G.; W. T. Patterson, V.G.; M. B. Hoffman, R.S.; J. B. Hammer, P.S.; J. Montalbetti, Treas.

Crow's Nest Encampment, No. 8, meets on the second and fourth Wednesdays of the month in the I.O.O.F. hall at 8 p.m. Officers for ensuing term: J. Patterson, C.F.; W. T. Patterson, S.W.; A. Morency, J.W.; Wm. Patterson, Scribe; J. Montalbetti, Treasurer.

Crowview Rarick Lodge, No. 64, meets the first and third Thursdays of the month at 8 p.m. Officers: Sister Patterson, N.G.; Sister Fraser, V.G.; Sister Evans, R.S.; Sister Walker, P.S.; Sister Pinkney, Treas.

Bellevue Lodge No. 118, meets every Monday night at 8 p.m. Officers: F. Padgett, N.G.; H. Jepson, V.G.; H. Barlas, R.S.; J. Wyatt, Treas.

Arctic Encampment, No. 17, Bellevue, meets the first and third Wednesdays of the month. Officers: A. B. Carr, C.P.; Stephen Berry, H. P. Harry, John, R.S.; J. E. Croft, Treas.

Charles W. Ray, Scribe, Box 6.

Ray of Hope Rebekah Lodge No. 67, meets the first and third Wednesdays of the month. Officers: Sister Christie, N.G.; Sister Barlas, V.G.; Sister F. Hallworth, R.S.; Sister Litherland, P.S.; Sister Goodwin, Treas.

Visitors of the Order are cordially invited to attend the above lodges.

A dance will be given in the Union hall at Frank on Monday night next, for the benefit of Charlie Shepak, who has been out of work for some considerable time and whose wife has been lying in a critical condition at the local hospital for about three weeks.

Blairmore, Alberta

Items of Local and General Interest

The Town of Blairmore assesses no mill rates are out.

The Irish Free State appears to be a kind of free-for-all state—High River Times.

A town is just like an auto going up hill—when it refuses to go forward it goes backward.

There will be an auction sale of hull at Calgary about May 25th.

It would now add considerably to the presence of the town if people would do away with the fish piles.

The total revenue from income tax for the province of Alberta amounted to \$1,398,998, and for the Dominion \$46,331,846.

The governments of the four western provinces have agreed to use uniform text books in the public schools.

No less than 148,000 new settlers will arrive in Canada from the older lands this year, and the greater part will settle in Western Canada.

At Penicton, the chief of police has asked the attorney general to stop the sale of newspapers in that town on Sunday.

R. B. Bennett has declined to appeal against the judgment handed down by Justices Stewart and Ives in connection with the West Calgary election. The case will be heard in May next.

The convention to hold their first meeting in Calgary on Monday, and are visiting Drumheller, Canmore, Banff, Lethbridge, Fernie, Blairmore, Nording and Edmonton.

Since the gardeners around Hillcrest and Bellevue have been putting seeds in by the ton, the soil has become very much heavier. This year's flower and vegetable shows promise to surpass all previous efforts.

D. F. Fleming has taken over the management of one of the Frites-Wood stores in British Columbia for a few weeks. The territory of the Western Canada Wholesale Company is now being covered by Manager Archie Coiro during Mr. Fleming's absence.

Wyoming plans a memorial to the late W. F. Cody, otherwise known as Buffalo Bill. An imposing statue of him is soon to be unveiled at Cody, Wyo. It will express the State's appreciation of him as a useful citizen. The Shoshone valley, for instance, learned the art of irrigation from Cody.

Leland Baker, twenty-two years old, of High River, but of late residing at Oklahoma, U.S.A., met an untimely death on Sunday, the 2nd, when riding a colt and leading a second horse. He was thrown off, but hung to the saddle and was dragged to his death.

The Diana, one of the oldest ships of the Newfoundland sealing fleet, came in her doom last week by being crushed in the ice floes. The Diana had had a most successful career, both in her former role as a whaler and later as a sealer.

The following is copied from the Mercury, Renfrew, Ontario: "Dr. Lyon H. Appleby, of London, England, has been appointed resident surgical officer at Sanford Royal Hospital, Manchester, England, and leaves London on April 1st for his new position. Dr. Appleby is a Queen's graduate and Renfrew College's graduate."

Dr. Appleby is the only son of Thomas Appleby, of Blairmore, and only twenty-five years of age. He was a member of the old school of Blairmore.

No one has yet invented painless extraction of income tax.

Loving darkness rather than light, Germany has decided to not adopt daylight saving.

Dr. Beeman has decided to remain in Bellevue as medical practitioner for the miners.

A dance was given at the opera house on Thursday night last by the Pass Orchestra.

While the textile strike is on, it takes a good many more than ten mills to make a cent.

Inspector Lindsay, of the R.C.M.P., was in the Pass a few days last week.

Chow Sam, who runs a restaurant at Macleod, was fined \$100 last week under the liquor act.

Another reason for a woman's mind being cleaner than a man's is that she changes it often.—Kansas City Journal.

Some of our restaurateurs have decided to charge room rent instead of a meal fee for some of their youthful patrons.

Matches made by one American factory in a single day, if placed end to end, would reach half way across the continent.

The province of Alberta has sixty-two members drawing \$200 a year seasonal indemnity, or a total of \$124,000 a year.

Environment is a wonderful thing. Think of how many patients have been bronchited by associating with their children.

A Cleveland man says that water will again flood the earth three thousand years hence. Somebody's always flatteringly the prohibitionists.—Washington Post.

The woman writer who said that a man's foul if he takes a woman's advice, and that he's a fool if he doesn't, might just as well have said that all men are fools and let it go at that.

The giant liner Leviathan, which has been idle at her pier since she ended her work as America's greatest troopship, will be overhauled at a cost estimated at more than \$8,200,000.

It is stated that the population of France is decreasing at such a pace that by 1965 the country will contain only twenty-five millions. The population, according to statistics, is falling off at the rate of two hundred thousand yearly.

An Enterprise subscriber sent a postcard to us last week, asking that the paper be discontinued as he had been dead since 1917. He was a former business man, and thinking it over and looking up his advertising record while in business, we decided that he should have sent us word of his death years before he quit his business.

Whoever you are, be noble; Whatever you do, do well; Whoever you speak, speak kindly; Give joy wherever you dwell.

Spider Logic

A man once wrote to Mark Twain as follows: "I found a spider in my morning paper. Is it good or bad luck? What does it signify?"

The great humorist answered him: "Finding a spider in your paper is neither good nor bad luck. The spider was merely looking over the paper to see what merchant was not advertising, so he could go to that store, spin a web across the door and live the life of undisturbed peace ever afterward."

The local school closes today for the Easter holidays.

It is estimated that birds save the farmers of America four hundred million dollars a year.

Misses Cyr and Reviere, of Pincher Creek, were town visitors last week end.

P. Ubertino, proprietor of the Orpheum theatre, was a business visitor to Calgary last week end.

W. H. Armstrong, late director of coal operations in District 18, died at Vancouver last week.

George Mulend, well-known Lethbridge merchant, was in town on Monday.

Some men just naturally look intelligent, while others wear thick black ribbons on their eye glasses.

If every cent spent was spent in the community in which it was earned, that community would be the best community in the world.

If you judge by the movies, people never do anything in the big north woods except have fights in front of the camera.

Local bootleggers are rather disappointed that the government has not made them an offer for their reserve stocks.

A real old time April blizzard was experienced through the Pass on Saturday last, leaving a snowy man in some six inches in depth.

A man in Berkshire, N. H., secured three wild cats with one shot from a ten gauge shotgun. The cats were fighting over a goose one of them had killed.

At Greenfield, Penn., a fish dealer, while sawing through a huge halibut, struck something hard and investigation disclosed an auto wrench.

Harry and Russell, sons of Mr. and Mrs. R. G. Vincent, of Coleman are taking a three months' course in the Sweeney Auto School at Kansas City, Mo.

Fred Thaeil was in town the early part of the week supervising the work of stock packing at the local store. The balance of stock is being moved to Lethbridge.

Rev. Phillips Jones, of Knox Presbyterian church, Lethbridge, will be the preacher morning and evening at the Institutional church, Coleman, on Sunday, May 7th.

The department of militia at Ottawa has sanctioned the authorization of a mounted infantry regiment at Pincher Creek, to be known as the Alberta Mounted Rifles, 2nd Regiment of the 13th C.M.B., in charge of Major Lyndon.

One of the local school boys wrote the following pen picture of a modern girl: "She has eyes of opal, teeth like pearls, a throat of alabaster, ruby lips, cheeks of peaches and cream and a head of pure ivory."

Forty-six men were killed, and 109 wounded on the German side during every hour the world was at war. This estimate was made from a study of official records. Germany's losses totalled in dead 1,808,545, and in wounded 4,248,779. Men to the number of thirteen million were under arms during the course of the war, of whom one in seven was killed in battle. The officers' corps lost 58,000 men killed and 96,000 wounded. German soldier and civilian losses through death caused directly by the war are estimated at 12,000,000.

A Nova Scotia paper remarks:

"The Puritan and Mayflower, owned in Gloucester, are fishing vessels that will sail for the International Fishermen's Cup next fall, and now an East Boston schooner, the Henry Ford, is also ready to meet the Canadian vessel. These three Yankee vessels, all faster than anything that ever floated (of course) will have to get through an elimination series and then the Nova Scotia schooner will be on hand to flick the winner."

The Study Of Manitoba

A New Interior Department Map Almost an Encyclopedia of the Province

A new map of Manitoba has just been issued, in the series of what was originally known as the Homestead maps, by the Natural Resources Intelligence Branch of the Department of the Interior. Time has made a great change in the appearance of the map since it was first issued in 1905. At that time Manitoba had but 350,000 population, the province covered only the original established area extending to the 50.30 parallel of latitude, which gave it the common name of "the postage stamp" province. The present map shows at a glance the importance to which Manitoba has attained. By the Extension Act of 1912 the provincial boundary was extended to the 60th parallel, with an outlet to Hudson Bay on the northeast. The latest census shows that the province has almost doubled its population, being now 613,000.

Southern Manitoba, especially west of Winnipeg, has remarkably little land that is now unoccupied, with the exception of a portion held in private ownership south of Portage la Prairie and a few minor scattered sections. Blue patches, which denote on the map alienated but unoccupied lands which are for sale are an outstanding feature southeast of Winnipeg and Manitoba. Of these unoccupied lands there are approximately 2,355,000 acres.

Of the surveyed area there is now available for homestead entry 5,348,300 acres, of which 120,900 acres were surveyed in 1915.

An encouraging feature of the map is the great extent of the lands which are under homestead entry but for which patents have not as yet been issued. These are shown in red on the map, and represent 1,296,000 acres. This new settlement is taking place largely in that portion of the province between Lakes Winnipeg and Manitoba and just west of the latter, and extending north to township 31. East of Lake Winnipeg comparatively no settlement has taken place and very little of the survey work has been undertaken.

In the southeastern portion of Manitoba there still remains a large area of unoccupied land. In this district is located the land reserved for the Greater Winnipeg Water District settlement scheme, and adjoining this is an area set apart as a proposed forest reserve.

One cannot fail to be impressed in studying the new map, at the great area of Manitoba that is covered with water. Of a total of 251,832 square miles, 15,906 square miles is under water. Apart from the larger lakes, Winnipeg, Manitoba and Winnipegosis, there are many smaller ones, which are distributed throughout the province.

The Natural Resources Intelligence Branch of the Department of Interior will supply copies of the map on request. Taken in conjunction with the lists of unoccupied lands for sale and a new pamphlet on "Farm Loans," shortly to be issued by the same branch, almost complete information is available to those desiring to extend their land holdings.

Seeds for British Trees

Gathered in the Northwest and Shipped to Scotland

The first shipment of no lowest forest seeds for the immediate reforestation of Great Britain has left for the old country.

It consists of 1,500 pounds of Douglas Fir seeds and the same quantity of Sitka Spruce seeds. The seeds go to the forest nursery at Wyllie, Scotland.

The work of collecting the seeds selecting only the choice has been going on all winter. A wide range of woods was covered by seed harvesters while many worked in Southeastern Alaska for the seeds of beautiful Sitka Spruce.

The best seeds were those found in squirrel caches, but only a few because were taken from each cache because of the danger of destroying the real American forester. Many of the seeds buried by squirrels grow up into trees.

Allenby Participates

The proclamation of the Sultan, Ahmed Fuad Pasha, as King of Egypt, was accompanied by the firing of salutes of 101 guns in Cairo, Alexandria and Port Said, and of 21 guns in all the other provincial capitals. Field Marshal Viscount Allenby, hitherto the British High Commissioner, accompanied by members of his staff, called at the royal palace and congratulated King Fuad, whom he addressed as "Your Majesty."

Foliage in London, England, or any place where there is rich soil, is usually fairly free from insect pests.

W. N. U. 1414

Wise Procrastination

Putting Off Some Things is Virtue Instead of Vice

There is such a thing as wise procrastination. There is a whole multitude of unwise things that if we can keep from doing them for a little while after the impulse or suggestion comes, we are not likely ever to do them. We have felt very thankful for many years now that at one time in our history there was a certain planned letter that we didn't write.

Very many of the mean things that some of us have done would never have been done if we had waited a little. Those unkind words that we spoke, that cut and hurt so and broke off the friendship of years would never have been uttered if we had learned the art of wise procrastination. It is a pretty good rule to follow that if we are prompted to do anything that seems harsh that we put off the doing of it just as long as our conscience will let us. It is a rather bad sign if we are quite eager to get at it.

Yes, procrastination may be a virtue instead of a vice if we only learn what things to put off doing. From the Christian Guardian.

The Flight to the City

Leaving the Home Town for a Chance at Fame or Fortune

If the American small town is sometimes drained very dry it is because of the great vitality of American life and the prevalence in our day of the desire, on the part of girls as well as boys, for some sort of career. The flight to the city for a chance at fame or fortune may mean some small towns with persistent mental anemia, but there is no way in a free country to stop it, and it may be doubted whether even the small towns which suffer from it are selfish enough to desire it to be stopped. The young folks must have their chance. Yet few towns have been drained so dry that they have not enough intelligence and culture to create an oasis in the desert. Nowadays many people have more ambition than ability. It is fortunate that a few people everywhere have more ability than ambition.—Springfield Republican.

No Time For an Affinity

Why a Kansas Woman Decided to Marry a Farmer

After all, our sympathy is with the wife of a farmer, a Kansas lady who comes along and says she is glad she married a farmer because: The farmer and his family seldom are actually in want or need of the necessities of life.

He and his good wife do not often figure in the divorce court. When he goes to town, he usually takes one or two of the children along and after finishing his errands at the stores, has precious little time left, if he did have any money, in which to pursue his affinity.

He works so hard all day he is glad to sit down with his family after supper; his good wife is not in doubt as to where he spends his evenings. The farmer and his wife and children generally are the closest of business partners.—From the Brandon Sun.

Her Week's Shopping

More Thrills Spending Twelve Dollars Than Five Thousand

He is extremely rich, even as wealth is counted in New York. Twenty years ago he lived with his wife in a \$65 a month apartment and once he bought a \$12 hat—then considered highly extravagant.

The other day, he told me, he came to New York from his suburban home with his wife to shop. He left \$5,000 with the hotel cashier for C. O. D. packages that his wife would send home from shopping trips. In three days it was gone. He placed that much more at her disposal and it had vanished at the end of the week.

He had more fun, and more thrills," he said, "when she bought that \$12 hat."—New York Correspondent.

The Editor and the Silver Dollar

An American editor has been inspired, after looking over his list of dollar subscribers, to compose the following: "How dear to our heart is the old silver dollar, when some kind subscriber presents it to view; the Liberty head without necktie or collar, and all the strange things which to us seem so new; the wide-spread eagle, the arrows below it, the stars and the words with the strange things they tell; the coin of our fathers, we're glad that we knew it, for some time or other it comes in right well; the spread-eagle dollar, the star-spangled dollar, the old silver dollar we all love so well."

The actual weight of the human brain, or the size of the head is no sign of special intelligence.

Saskatchewan Prize Winning Livestock Judges

Top row, left to right—Stanley Bowder, Jonathan Francis and Tom Livingstone. Lower row, left to right—George Adair, Elwood Adair and John Mayhood.

Note the shields and the silver trophy, also the 11 medals at the bottom.

These six young men are farmers' sons of Indian Head, and at the livestock judging contests held in Regina in connection with the annual meeting of the Saskatchewan Livestock Breeders' Association, established a record of which they may well be proud.

Elwood Adair won the grand aggregate championship of best judge in the competitions.

Prizes were presented by Hon. C. M. Hamilton, minister of agriculture to Saskatchewan.

Other prize winners were:

Sheep Judging

Indian Head No. 1 team, composed of John Mayhood, George Adair and Elwood Adair, with 210 points, winner of three silver medals presented by the Saskatchewan Sheep Breeders' Association. The second prize of three bronze medals from the same donors went to the Lamburn team, made up of Roy Lamb, V. Whittaker

and Melvin Krafke. Individual prizes in this class were won by John Francis, Indian Head, 82 points; Aaron Hagen, Birch Hills, 77 points; Virvan Whittaker, Lamburn, 76 points; M. Krafke, Lamburn, 75.

These prizes were pure-bred ewes donated by H. E. Pollett, Duval; G. N. Buttm, Richard; W. C. Heron, Hamoon, and the Indian Head Experimental Farm.

Swine Judging

Birch Hills, No. 1 team, 256 points, Aaron Hagen, Charles Smith and Dan Ellison; Colgate team, 253 points, Kenneth Moore, James Dalgleish and Norman McLeod. These prizes were bronze and silver medals in each of the respective classes donated by the Saskatchewan Swine Breeders' Association. The prizes of pure-bred sows donated by R. A. Wright, Drinkwater; S. Tomecko, Lipton; C. W. Thurston, Regina, and the Saskatchewan Institutional Farms, were won by: J. Dan Ellison, Birch Hills; 2, Aaron Hagen, Birch Hills; 3, James Dalgleish, Colgate; 4, Elwood Adair, Indian Head.

Horse Judging

Indian Head team No. 1, 176 points, John Mayhood, George Adair and Elwood Adair, a silver cup and three silver medals; Grenfell team No. 2,

E. Brierley, J. Brierley, E. Box. Individual prizes went to: Vivian Whittaker, Lamburn, gold medal, 94 points; Stanley Boden, Indian Head, silver medal, 94 points; George Adair, Indian Head, bronze medal, 93 points.

Cattle Judging

Indian Head team No. 1, 290 points, bronze shield and three silver medals, to John Mayhood, George and Elwood Adair; Tregarva team, three bronze medals, 253 points, E. Mickleborough, Gordon Renick, Wilbur Calley, Lamburn team.

Vivian Whittaker, Roy Lamb and Melvin Krafke, 251 points, \$5 each; Tisdale team (B. Blue, R. Towns and M. Abbott), \$5 each. Individual prizes went to Jack Pearl, Regina, consisting of a pure-bred Aberdeen Angus we get another important prize presented by James Browne, Neudorf, and to Melvin Krafke, Lamburn, who was \$5 donated by the Cattle Breeders' Association.

The girls' special prizes of \$5 each went to Nellie Pauling and Mildred Boyd of Duval.

Prizes for the three highest scores were won by Elwood Adair, Indian Head, 349 points, \$15; George Adair, Indian Head, 333 points, \$10; Aaron Hagen, Birch Hills, 309 points, \$5.

Whaleskin Makes Good Leather

Another Important Product Now Contributed by Sea Monster

Until recently blubber and whalebone were regarded as the only things worth obtaining from the whale; but now we get another important product from the sea monster's great carcass. It has been found that whaleskin when tanned makes excellent leather, and a great whale tannery has been started at Puget Sound, U.S.A.

The most important thing about the whale is that the whole of his skin is good. The skins of cows, horses and other land animals furnish a comparatively small quantity of leather, for only the back parts are of the right quality.

Whaleskin is so thick that it can be split into several layers, each as stout as oxhide, and it is excellent for making boots, bags, harness, or belting. The whale's usefulness is not confined to his outer skin. The stomach furnishes a leather as soft and strong as the best kid.

On Edmonton University Staff

Dominion Entomologist to Aid in Alberta's War on Hoppers

E. H. Strickland, who for some years has been Dominion Government entomologist, is now located at Alberta University as professor of entomology, a chair which has recently been created in the faculty of agriculture.

Mr. Strickland has been loaned by the university to the department of agriculture of the province for the coming summer, to supervise the efforts to combat the spread of the grasshopper pest.

That Off-Sets Randolph

When Canadians are inclined to bite nails when they read some of the Heart propaganda against Great Britain they should reflect that nearly all the other journals across the line are devoting a great deal of space to the improvement of relations between the two great English-speaking nations.—Victoria Times.

New Varieties Of Sweet Corn

Results of Experiments Made at the Central Experimental Farm

As corn is one of the most important vegetable crops, considerable attention has been paid to it by the Horticultural Division of the Dominion Experimental Farms System. One of the main lines of work engaging the attention of the division is the origination of new varieties of sweet corn that would be earlier and, if possible, better than those already on the market. As the season of corn is short in the prairie provinces, special effort has been made to obtain varieties that would develop there rapidly. The three earliest varieties of sweet corn that these experiments have produced are Pickaninny, Early Malcolm—already well-known in the western provinces—and Sweet Squaw. Pickaninny is a cross made at Ottawa from a black sweet corn, originally brought from New Brunswick in 1916, and Sweet Squaw, the latter being the seed parent. This corn, which has a short ear, the average length being five inches and the number of rows for the ear eight, is doing very well in the different parts of the prairies, and has been found to be the very earliest at Ottawa. Early Malcolm was obtained by selection from the Early Malakoff originally introduced from Russia. By cultivation at Ottawa the variety became so changed that it was decided in 1915 to give it a new name. Since that time it has been steadily selected for better ears and earliness, and the seed has become very popular both in Canada and the United States. The ears average five inches in length and the number of rows to the ear is twelve. Sweet Squaw is a cross between White Squaw and Early Malakoff made at Ottawa in 1913 and received its name in 1917. It has obtained considerable popularity and is considered a valuable acquisition, especially in the prairie provinces. Its average length of ear and the number of rows to the ear are the same as those of Early Malcolm.

Manitoba Social Hygiene Association

Summary of Activities of this Association for Past Year

Berlinded sixty-eight mistaken teenage rural girls (making a total of three hundred and eighty) that have been assisted by this association) finding them good homes, also adopting their infants.

Delivered one hundred and sixty lectures and addresses, conservative estimates of the number of people of literature dealing with sex and moral problems. We also provided our workers with two hundred and seventy-four thousand four hundred and sixty-seven miles.

Received grants and contributions in cash amounting to \$8,334.55 and in kind received many contributions in kind, and many rendered valuable services gratis, which enabled us to meet the demands made upon us these times.

We also sent to outlying districts over two hundred infants' outfits of ten to twenty-five pieces each.

Making Himself Clear

A subscriber writes to the "Anthony Republican" as follows: "Don't send us your paper any more. We don't like any papers nor we would take yours. But we don't want none at the present time. The Republican is a awful good paper, but we can't take no paper now, so please stop your paper. We'll take your paper again when we can take a paper. Don't send it no more."

The substance we make out of the foregoing is that the man evidently wants his paper discontinued.

C.P.R. Donation to Russian Relief

Three hundred bags of Canadian flour have been presented to the "Save the Children" Russian relief fund by the Canadian Pacific Railway, President E. W. Beatty announced. "I am entirely in sympathy with the objects of this fund," said Mr. Beatty, "and everything possible should be done to alleviate the suffering of these unfortunate children. A campaign will shortly be launched in Canada on a nation-wide scale with the sanction of the Canadian Government."

Church Built of Paper

The "most curious church in the world" found at Berlin, Norway. It is built entirely of paper, saturated with a concoction of unskated tallow, curdled milk and the whites of thousands of eggs. The church seats 1,000 persons.

Of Local Interest

Peace River district produced eight million barrels of wheat last year.

The Blairmore Golf Club will hold their second annual ball in the Greenhill Grill on Friday evening, April 21st, in celebration for which have been sent out.

It would be very interesting to know what Adam and Eve used for colic medicine, after eating the green apples. They didn't have our moonshiners to make stomach bitters for them.

A serious epidemic has hit the cat tribe in Blairmore, and members of that tribe are passing away at the rate of two or three a day. Seems that they are living mostly on rats and mice that have become victims of poison bait set out by the cat owners. No flowers!

Quite a number of our business and professional men are apparently shareholders in Calgary and Winnipeg printing offices—helping to build up unexpected trade for guys they have never seen. These same business and professional men, avail of any opportunity to rap us on the fingers for not boosting for local patronage—for them!

Send It In!

"If you have a bit of news—Send it in:
Or a joke that will amuse—Send it in:

A story that is true—An incident that's new—We want to hear from you—Send it in:

If it's only worth the while—Never mind about your \$14—Send it in!

Some Advice

If a woman is sulky and will not speak—Excite her.
If she gets excited—Control her.

If she talks too long—Interrupt her.
If she goes up in the air—Condense her.
If she wants chocolate—Feed her.
If she gossips too much—Regulate her.
If she is too contrary—Transform her.
If she is willing to come half way—Meet her.

If she will give all the way—Receive her.
If she is a poor cook—Discharge her.
If she is wrong—Rectify her.
If she elopes—Telegraph her.

Let poets sing their tilting song—And gaily snipe the lie!
Give me the man who whistles when He's putting on a tire.

Death of Mrs. George W. MacPherson

The following is copied from the April 7th issue of the New Glasgow Free Lance, in connection with the death of Mrs. G. W. MacPherson, mother of Mrs. Purvis, of Blairmore, who died at her home, Westville, on Thursday last:

"The death took place at her home yesterday of Catharine Ross, wife of Geo. W. MacPherson, after a brief illness. The deceased came to Westville when the town was in its infancy and during all these years has been a continuous resident. She was pre-eminently a lover of her home and family, a good friend and neighbor and took an active interest in the work and welfare of Carmel church, of which she was a member and regular attendant in the years of active health and strength. She is survived by a lonely husband who has travelled with her the pathway of married life for over fifty years. The four daughters are Mrs. John J. Purvis, Blairmore, Alberta; Mrs. Jas. J. Crockett, Fiddle River; Mrs. John J. MacDonald, Sylvester; and Mrs. Hiram Cumming, Westville. The funeral will take place Wednesday April 12th from her late residence, Highfield, the service commencing at 3 p.m. Interment at Auburn Cemetery. To the bereaved we tender sincere sympathy."

Mrs. MacPherson's death occurred just nine months to the day following the death of her grand-daughter, Miss Lelia Purvis, which occurred at Blairmore in July last.

LIVERPOOL POLICE EXAMS. ARE NO JOKE

LONDON.—The thousand and one questions put to Liverpool policemen while on duty in the streets, present trifling difficulties compared with the posers in the examinations just concluded for promotion in the force. The general intelligence questions placed before constables aiming at sergeant's rank include the following:

How many legs has a crab, newt, spider, centipede, and a full-sized billiard table.

Name ten standard builds of motor cars.

Among puzzles submitted to sergeants were the following:

What are the ingredients of a plum pudding, and where do they come from?

Draw roughly on a small scale, a parallelogram, pentagon, octagon, cube, heptagon.

Name eight different varieties of apples, giving a short description where possible.

Explain briefly the meaning of the following: "Waste not, want not." "A rolling stone gathers no moss." and "Honesty is the best policy."

Among geographical problems were the following:

What are uses of zones?

Name them, and define their position by diagram.

Describe a railway journey from Liverpool to Normanton Junction, with notes of interest on the towns through which you pass.

Give the country towns of following counties and say what they are noted for: Berkshire, Cornwall, Buckingham, Merionethshire, Linlithgowshire.

By which railway lines do you travel Liverpool to Bristol, Newcastle, Yarmouth, Bouremouth, or Hull?

What and where are the chief minerals found in Scotland?

Which ports is a liner likely to call at on a voyage from Liverpool to Rangoon, and where are they situated?

The Lethbridge Herald of Tuesday contains another article, written by a Calgaryan, that does anything but boost for Lethbridge and the Crow's Nest Pass. Judging from the many such articles that the Herald has recently given place to, it seems that there is great need for the management of that paper employing a reviewer.

PULP AND PAPER MILL PROPOSED

A wave of interest has been aroused locally through repeated reports being circulated that there is a possibility of the development of another branch of the lumbering industry, or what in fact may be termed a new industry in the Crow's Nest Pass, with the likelihood of its centre being in close proximity to Fernie. This venture is said to be the establishment of a fairly large capacity pulp and paper mill, and it is known that parties have been investigating conditions as to the supply of timber and its accessibility to a suitable site where cheap power can be had.

Quite naturally the promoters of this project are not proclaiming their intentions in loud terms, but are very quietly carrying on the preliminary work. It is understood, however, that a party of cruisers and pulp mill experts are now engaged in the limits located along the South Fork and Lodge Pole Creek, in Fernie Park, where an abundant quantity of good quality pulp timber is said to abound. Rumor is also current that those really behind this proposed industrial development are fully responsible financially and otherwise to carry it out to the final stage, provided of course the conditions in this vicinity warrant. It is also understood that they are extremely anxious to secure a permanent supply of pulp products, as there is already ample market for the greater portion of the mill's output with another enterprise, in which these parties are interested and have control, namely, one of the largest Chicago dailies. The management of the local end of the matter is under the direction of a prominent lumberman of this district.—Fernie Free Press.

THE TROUBLE WITH JURIES

Said a Spokane superior judge, discussing tendencies toward lawlessness and crime. "People say the courts are no good and criminals are never punished. This is due to the laxity of juries. The judge then gave a few instances in support of his contention.

"A man," he said, "who grumbled about police and courts was soon after on a jury. He voted not guilty out of maudlin sympathy. A woman told me she was 'awful glad' that a certain young man had got off. 'He had a good face and I have a son,' she said. Evidence of guilt had no weight with her."

Juries, of course, cannot be expected to function always on a basis of exact justice. They are not, like judges and attorneys, primarily concerned with the letter, or even with the spirit of the law. They are easily swayed by appeals to sympathy and prejudice. The weaknesses of the jury system, which are many, correspond to familiar weaknesses of human nature.

It has been futile so far to suggest substitutes for the jury system, because with all its faults that system offers valuable safeguards to the rights of the individual. It is hard to say just how the juries can be made to show more regard for the upholding of the law and less proneness to acquit a criminal for no other reason than that he has a wife and children, or a kind face. In a general way it is true that improvement ought to follow heightened civic morale. If people generally can be made to take law enforcement seriously, and to re-enforcement, juries might give less leniency, juries might give less concern to the officials who have to do the enforcing.—Spokesman Review.

The road from Fernie to Elko and part of road between Hosmer and Fernie have been closed till frost is out of ground.

C. P. R. Constable A. J. Tierney was shot and instantly killed on Saturday morning in the yards at Moose Jaw, when he tried to arrest a robber who was breaking a freight car.

Cowley Happenings

H. D. McMillan has returned from his visit to Calgary.

A dance was held at the Bare schoolhouse on Friday night last.

An old fashioned "norther" swept this district on Saturday.

Mr. Jackson, of the North Fork, was a visitor in town on Thursday.

Rev. W. H. Day, of Pincher Creek, was a visitor here on Friday.

Rev. Dr. Unsworth will hold his last services here on Thursday night.

Rev. Dr. Unsworth and Mr. Dunnington were visitors to Coleman on Saturday.

At the request of the public, "Deacon Dubb's Dilemma" will be staged again here on Wednesday night.

The bluebirds have returned, and although the weather has been very blustery they have started to nest in their old haunts.

Mr. and Mrs. Elwin Tustian and little daughter Freda, of Innisfail, are visiting relatives and friends here.

Three carloads of Cowleyites attended the concert and dance given at Lundbreck by the women's institute on Friday night.

J. Kemmis and family attended the wedding of Miss Irene Hyde at Pincher Creek on Thursday last.

Less Werley, who has been in a Lethbridge hospital under surgical treatment for the past month, has returned home.

Mrs. M. A. Murphy and little daughters Edith and Sylvia left on the noonday train on Tuesday for an extended visit in Calgary and Edmonton.

The last whist drive of the season will, we understand, be held in Tustian's hall on Tuesday night. A dance will follow the drive and a good time is expected.

The prize winners at the whist drive held here on Wednesday night were as follows: Mrs. Robert Littleton, Mr. Gray, Miss Gladys Baines and Gordon Robinson.

The local postoffice waiting room is being treated to a new hardwood floor.

When the Paris and London air mail express collided in mid air on Friday afternoon last, the pilots of both airplanes, three passengers and one mechanic were killed in the wreckage, that fell flaming to the ground.

Tax Recovery Act NOTICE

The time for redemption of subdivided lands sold for arrears of taxes in 1920 has been extended to the first day of May, 1922, and if it is not redeemed before that day the tax sale purchaser thereof may pay the balance due by him at any time within two weeks from that date. A list of such lands may be seen at the office of the secretary-treasurer of the Town of Blairmore.

F. WRIGHT, Secretary-Treasurer

Rev. Armstrong finds it difficult to size up a girl from what is visible above or below the "white wash."

It is reported that a partnership is being formed between D. G. McKensie, of Macleod, and J. E. Gillis, of Blairmore.

We are busy these days entertaining visitors who have called to see our new office towel. The old towel continues to grow in value every day. It is now getting to be so stiff that Mr. Huffman sometimes mistakes it for the stove poker.

We regret to learn that Mr. S. J. Lamey, manager of the Union Bank of Canada at Bellevue, is seriously ill, having developed pneumonia, following a slight attack of lagrippe. His condition at time of our going to press is very critical.

It is reported that Eugene Large, proprietor of a large motor garage at Fernie, is in the toils, having been caught in the act of transporting automobiles over the Great Northern railway tracks west of Michel.

At Coleman on Saturday, Adolph Panquin was fined \$50 and costs for infraction of the liquor act. His larder was found to contain two bottles of Peter Dawson whiskey, one bottle of "Scotch" of unknown brand, one bottle and a half of rum.

Southern Alberta has been experiencing the heaviest snowfall in twenty years, and perhaps in history. On Sunday morning last a mantle, fully averaging twelve inches in depth, covered the south country. This had about melted, when another fall of a foot or more came, yesterday. Farmers are more than jubilant over the prospects of a crop this season, and it is to be hoped that their present feeling of optimism will be rewarded.

USEFUL FOR OVER 500 PURPOSES

Gillett's Lye can be used for so many purposes that their enumeration here would be impossible. For example, Gillett's Lye can be used for making soap, in washing dishes, also as a disinfectant. For softening hard water. As a means of removing grease and smoke stains. These are only a few of its many uses, but they serve to indicate what has made Gillett's Lye such a general household utility to-day.

Decline Substitutes.

Made in Canada.

Assets and Liabilities

The importance, in fact the necessity, of any man engaged in business having an accurate statement of his assets and liabilities is universally recognized. It is essential that such a statement be revised from time to time and kept up to date, and the latest statement compared with previous ones in order to determine whether financial improvement is being effected, or if the reverse is true.

Such a statement is of first importance to the business man in all his dealings with his bank and with his creditors. Without such a statement a bank will not make loans, nor can a man establish a satisfactory rating for himself.

Also determining the financial standing of a man by such a statement, which is regarded as the more important, his assets or his liabilities? It appears to be generally believed that a man's financial standing is revealed by his assets. But this is not so. Of course, his assets have a bearing on the subject, but it is his liabilities which more clearly indicate a man's financial standing.

"Liabilities can only be lessened by a realization of assets. Assets, on the other hand, may shrink, frequently do in the process of realization. A statement of assets, therefore, usually represents something of greater value than is actually possessed, and allowance must be made for this. Liabilities, on the other hand, may be understated, quite innocently, too, because a liability may be of an indirect character and contingent on something which may never happen. But it may happen, and must therefore be taken into account."

The outstanding difficulty in Western Canada today is not that the average farmer's assets are not good, but that his liabilities are too great; that while he cannot realize on his assets at the present time except at enormous loss, his liabilities have accumulated and are not now acutely pressing.

One lesson to be learned from the experience of the past few years is the importance of exercising care in incurring liabilities. There is such a thing as being cursed, rather than blessed, with too much credit. A liability once incurred, must be discharged, regardless of ability to realize on assets. The contracting of liabilities should therefore be guarded against all along the line, and every human precaution taken to protect oneself against the ultimate time of payment.

But it is not solely in the realm of business that a person should make a close study of their assets and liabilities, but more particularly their liabilities. Every man and every woman has a niche to fill in his or her community. In filling that niche they have certain assets and certain liabilities. They may have the assets of good health, or a splendid education, or wealth, or gifts of leadership, or inherited abilities. But they may also have the liability of an ungovernable temper, or the faculty of making enemies rather than friends, or a generally disagreeable disposition. And one such liability out-balances all assets when it comes to permanently establishing oneself in the esteem of neighbors and in the ability to render service to a community.

Cultivate your assets, and protect them, too. If you have an asset in a strong, healthy body and upon this are founding your worldly success, safeguard it. To lose health as an asset is to lose all, with nothing but liabilities left and which you would lack the ability to meet. If your main asset is wealth, it may disappear. But while cultivating and protecting your assets, give even closer heed to your liabilities. They will mar everything unless they are reduced and ultimately eliminated. Pay off that ungovernable temper, that caustic tongue, that mean disposition, just as rapidly as you possibly can.

Remember your liabilities! Keep close tab on them! Check them out frequently, and if you cannot find a lessening of liabilities you have good reason for alarm. Unless overcome, whether they be of the financial or other kinds, they will swamp you in the end.

Council of Women on Immigration

Quality, Not Quantity to be Sought in Picking Immigrants

At the concluding sessions of the Canadian Council of Women on Immigration, the council met with the sub-committee of the Cabinet on immigration, and presented the result of its deliberations in the form of a number of recommendations. It expressed appreciation of the statement of Hon. Chas. Stewart, minister of immigration, to the effect that a large immigration programme was considered impossible in view of the unemployment situation and endorsed the opinion that quality rather than quantity of immigration must be the first consideration in building up Canadian national life.

The council recommended that the Government should make further efforts to familiarize intending immigrants with the actual conditions in Canada and with the rules and regulations restricting admission at the ports. It also recommended that, as far as possible, every immigrant should undergo a medical and mental examination before embarkation and that a medical adviser with psychiatric training be retained on the staff of the London office.

Makes Breathing Easy. The constitution of the air passages and the struggle for breath, too familiar evidence of asthmatic trouble, cannot be cured by Dr. J. J. Kellogg's Asthma Remedy. This is the famous remedy which is known far and wide for its complete effectiveness even under very adverse conditions. It is no untrue, experimental preparation, but one with many years of strong service behind it. Buy it from your nearest dealer.

Distance Traveled in Dancing

Dancers are Really Marathon Athletes Says Statistician

Swiss statistician estimates that the average fox-trotter travels about one mile in ten minutes, while, in the case of other dances, a dancing couple covers a mile in 30 minutes.

He found that dancers, at a ball which lasted from 10 p.m. until 5 a.m., made 56,000 steps, amounting to a distance of about 30 miles, and among them were women shod in tiny high-heeled shoes who would never walk a hundred yards in the street, preferring a motor car.

A Swiss doctor, by means of a pedometer, reckoned that he had made about 6,750,000 two-foot steps in a year.

One hundred colonies of bees, under favorable conditions, will produce twenty-two and one-half tons of honey in one season.

Importing Farm Workers

Fifteen Hundred Experienced Farm Workers for Saskatchewan

Following a conference between the United Farmers' Club of Saskatchewan and C. E. Tomsett, of the provincial department of labor, it is definitely announced that 1,500 experienced farm laborers are to be imported into Saskatchewan, each man coming in on contract to work for \$35 a month and board throughout seeding.

Special arrangements are to be made at the employment bureau for the reception and distribution of the men.

SHE FOUND RELIEF AFTER FIVE YEARS

An Ex-Serviceman Tells How His Wife Found New Health

"I wish to testify," says Mr. R. A. E. Hughes, of Hamilton, Ont., "to the efficiency of your Dr. Williams' Pink Pills for the following reasons:—

"When I returned home in May 1919, after nearly five years absence on army service, my wife had changed from a healthy, robust woman to one whose life was a burden and ordinary duties almost impossible. Through war worries, loneliness and other factors contributed through my unavoidable absence, her health had been steadily undergoing what I might describe as an undermining process, for years."

"I was fully aware from her letters that I would not find her the same woman, but, when I reached home, I was terribly shocked to find her in the condition she was in. Her 'healthy color' had changed. She spoke listlessly and her skin was sallow. She was weak and listless, and with difficulty moved about the house. She hardly ever moved out of the house as she became so short of breath and feared she would fall during her daily trips to the kitchen. As she said were becoming more frequent."

"The day I arrived home I visited our doctor, who is an old friend and, later, through his advice, consulted with another physician of date city. Everything was done that could be done, and many medicines were prescribed, and faithfully taken. As these were of no avail I trusted that time alone would suffice to build up what had been gradually been undone in the course of five years. After twelve months, conditions had become worse. Then I decided on change of air, gave up my position in the city and moved to the country. Even this did not do any good. I think it would be true to say that I was in a state of despair."

"One day a friend visited us and as a result of their conversation my wife made up her mind to try Dr. Williams' Pink Pills. "I had not much faith in what I did, but procured three boxes. This had been nine months ago. I was surprised to hear my wife say, after about the tenth day, 'believe these pills are doing me good.' A week or so after that I certainly believed they were, for I saw color returning to my cheeks and the sallow, unhealthy color disappearing. The pills were certainly doing what you claim they will do, and of her own free will she continued them for about three months. At the end of this time she seemed quite a different woman. Life was worth living. The listlessness had gone and she could walk up the steep hill, which is half a mile long, leading to our house, without the slightest inconvenience. At this stage she discontinued the pills and she is just as well now as ever she was."

"Now, sir, I want to say I have every faith in Dr. Williams' Pink Pills, as I have had proof, and I believe that what this medicine did for my wife, it can do for others."

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box, or six boxes for \$2.50 from Dr. J. C. Williams' Medicine Co., Brockville, Ont.

Motor Freight Handlers

Transporting Grain to the Railway By Motor Truck

Motor trucks hauled 1,200,000,000 tons of freight in the United States last year, according to the American Chamber of Commerce. It is significant of a decided change in the usual order, and brings to mind again a proposal made some time ago to build grain elevators in districts that are ten miles or more from the railway facilities, transporting the grain to the railway stations by motor truck. The need for good roads is constantly growing—and it takes a really good road, solidly constructed to stand up under heavy motor truck haulage.—Saskatoon Star.

Look Towards Canada

Many American Farmers Express Desire to Take Up Land in Canadian West (Special Correspondent by G. C. Porter of Winnipeg).

St. Paul, Minn.—This is the gateway through which has flowed many thousands of seeking homes to the Canadian Northwest. This flood reached high tide during the first eight years of the century. It gradually receded until it reached a mere dribble during the war. There are many circumstances just now to suggest a revival of the movement over the line to the north.

During the past two days I have conversed with prominent business men, including bankers, grain dealers, millers and real estate men who are directly or otherwise interested in emigration. I have gone into the subject with Dominion Government of officials connected with the work and employees of the Natural Resources Department, the Canadian railways and have examined letters from thousands who express a desire to emigrate to the Canadian Northwest or to buy land in the western provinces.

Tenant farmers who find themselves unable to continue payments on five hundred dollar per acre farms in the Central Western States will constitute to majority moving to the Canadian prairies this year and probably in increasing numbers for several years to come. Many of them have little cash, but most of them have valuable experience on the land, carloads of farm implements, household goods and cattle. Many, however, will make small payments on farms for purchase.

Such well informed men in this gateway as R. A. Garrett, Dominion Government agent; A. H. Davis, head of the National Railway Natural Resources Department of St. Paul; J. McKay, MacAlister, district representative here of the Canadian Pacific natural resources; and M. E. Thornton, of Calgary, superintendent of Canadian Pacific natural resources agent in the United States, who have been in St. Paul recently, are confident there is to be a very considerable movement of desirable farm emigrants from the States to Canada. They believe that any plan adopted to encourage or help farmers from the States to settle on the Canadian prairie farm and dig his living out of the soil should be encouraged to that end and not obstructed by technical immigration laws or red tape. Of course they are talking in terms of the future, but the Canadian government has already taken the improved view taken of emigration to Canada down here, is the increased price of grain and the rapid approach of the Canadian dollar to par.

Sciatica for Years But is Well Again

WHY G. LACHANCE RECOMMENDS DODD'S KIDNEY PILLS

Quebec Man Relieved of Long Suffering Shouts Praise of Dodd's Kidney Pills.

Pestie, Vallee, Gaspé Co., Que.—(Special)—Mr. Charles Lachance, a well-known resident here is shouting the praises of Dodd's Kidney Pills. "I had sciatica and rheumatism," Mr. Lachance states. "My trouble lasted from 1908 to 1910. I suffered freely with the least exertion. My limbs swelled.

"I took Dodd's sciatica and rheumatism pills for five years I was a sufferer. Then I got six boxes of Dodd's Kidney Pills. Now my health has come back and I tell everyone who suffers from sciatica, rheumatism or kidney trouble to use Dodd's Kidney Pills."

Dodd's Kidney Pills act directly on the kidneys. They put the kidneys in condition to strain the uric acid out of the blood. Without uric acid in the blood there can be no rheumatism or sciatica.

Ask your neighbors if Dodd's Kidney Pills do not make healthy kidneys.

Mining Claims Bring Quarter Million Confirmation was given at The Pas of the report of the sale of fourteen mining claims at Copper Lake to Nipissing Mine of Cobalt and New York.

The claims are the property of J. P. Gordon, and the price paid to be a quarter of a million dollars. Low grade gold ore has been found upon several of the claims in addition to a gold pocket of extremely spectacular character.

Something like 45,000 stitches are required to make the ordinary suit of clothes.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind, Colic and Diarrhea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Wm. H. Fletcher

In Use For Over 30 Years

THE CENTAUR COMPANY, NEW YORK CITY

A Servant of Empire

Lord Northcliffe has Accomplished Much in Few Months

During his travels Lord Northcliffe has rendered great services to the Empire. He has earned the gratitude of Australia by rendering her not only for more population, he has told the blunt truth about India, he has disclosed the tolltime lives led by Britons in Malaya, and he has exposed the Palestine blunder. The French and Dutch agents and those that are found in the tributes to their great work in the east, and he has shed much light on the obscurities of Chinese politics. A wonderful achievement in a few months!—London Sunday Pictorial.

The worms that infest children from their birth are of two kinds, those that lead lodgement in the stomach and those that are found in the intestines. The latter are the most destructive, as they cling to the walls of the intestines and do not interfere with their work havoc there. Miller's Worm Powders dislodge both kinds and while expelling them, the system serves to repair the damage they have caused.

Character Counts

Hope for Those Who Have Not Been Endowed with Special Qualification

There is reason to think that much of the world's best work has been done by men who have triumphed over intellectual as well as physical defects. The best observer is not necessarily the one with the best eyesight; the best thinker is not necessarily the one with the best brain. Lancelotti Hearn was half blind, and there have been eminent mathematicians who were clumsy at adding figures.

A defect may be allowed for all things, but in the case of a mind things may be done by an untiring will even with defective tools. For all these reasons we should be a little cautious about taking too mechanical a view of the mind and its powers. The artist must have eyesight, yet a certificate from the oculist is not the essential thing in deciding to learn to paint. No more is a first-rate brain essential for intellectual work.—Springfield Republican.

Business is Business

A train in the Western States of America was held up by bandits, who ordered the passengers to give up all their money.

One of the passengers was a Jew from New York, and when his turn came, he reluctantly drew three hundred dollars from his pocket, and, taking six, put them in his pocket.

"What do you mean by that?" asked the bandit.

"Surely," answered the Jew, "you don't mind me taking a 2-per cent discount on a cash transaction?"

Course in Mining and Geology. A short course in mining and geology for prospectors and others interested in mining, has been instituted at Manitoba University. The course includes lectures on The Pas mineral belt, mine development, oil geology and building materials.

Baseball was played in New York as early as 1842.

Minard's Liniment for Coughs and Colds

Belated Apology

Unwelcome Author—"That's a lovely song! It always carries me away." She—"If I had known how much pleasure it could give us both, I would have sung it earlier in the evening."

Dye Old Curtains, Sweater Or Skirt

In Dixie and Dyes

"Diamond Dyes" add years of wear to old curtains, sweaters, coverings, hangings, drapery, etc. The new package contains directions so simple any woman can dye her old curtains, sweaters, etc. Diamond Dyes are guaranteed not to fade or run. The fact of their being dyed whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods.

Trees Attract Birds

An interesting and unexpected feature of tree planting in the prairie provinces is that in regard to bird life, considerable plantings have been done around Regina, the provincial game guardian reports that several species of birds that have never been seen in that part of the country before have taken up their abode in Regina Park and in the trees around the Parliament Buildings.

Use Minard's Liniment for the Flu

When the great liner Olympic burned coal, she required the services of 229 men in her fire rooms; with oil burning engines, 60 men do the work.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

According to the Alaskan census bureau, the white population decreased 22.4 per cent. between 1910 and 1920.

Over fifty years ago this noted physician gave to the world a prescription which has never been equalled in the history of women's diseases. Dr. Pierce's "Fruit of Life" is a medicine which has been learned is all that treating thousands of cases. The result of his studies was a medicine called Doctor Pierce's "Fruit of Life." This medicine is made of various growths that nature surely intended for backbone, headache, weakening pains, and for the many disorders common to women in all ages of life. Women who take this standard remedy know that they are getting the best of medicine, so good that druggists everywhere sell it in both tablet and fluid form.

Send for Dr. Pierce's Branch Laboratory in Bridgeport, Conn., for full package tables.

A Successful Man

Among the notable professional men of this country who have achieved great success along strictly business lines was Dr. R. V. Pierce. Devoting his studies to the study of women's diseases, he became a recognized authority in that line.

Over fifty years ago this noted physician gave to the world a prescription which has never been equalled in the history of women's diseases. Dr. Pierce's "Fruit of Life" is a medicine which has been learned is all that treating thousands of cases. The result of his studies was a medicine called Doctor Pierce's "Fruit of Life." This medicine is made of various growths that nature surely intended for backbone, headache, weakening pains, and for the many disorders common to women in all ages of life. BEAUTY OF THE SKIN

Is the natural desire of every woman, and is obtainable by the use of Dr. Chase's Ointment. Pimples, blackheads, freckles, and all other skin troubles are cured by the use of this ointment. It is sold by all druggists and is the only one of its kind in the world.

Dr. Chase's Ointment

W. N. U. 1415

Hon. Chas. Dunning Forms New Cabinet In Saskatchewan

Regina.—Hon. W. M. Martin held a conference with His Honor H. W. Newlands, and recommended that Hon. Chas. A. Dunning be called upon to form the new Government necessitated by Mr. Martin's resignation. Mr. Dunning was then called upon by His Honor to undertake this duty. After the new cabinet had been sworn in, the portfolios were announced as follows:

Hon. C. A. Dunning (Moose Jaw County), Premier, President of Council, Provincial Treasurer and Minister of Railways.

Hon. A. F. McNab (Saskatoon City), Minister of Public Works and Minister of Telephones.

Hon. S. J. Latta (Last Mountain), Minister of Education and Minister in charge of the Bureau of Publications and the King's Printers Office.

Hon. C. M. Hamilton (Weyburn), Minister of Agriculture and Minister of Municipal Affairs.

Hon. J. A. Cross (Regina City), Attorney-General and Minister in charge of the Bureau of Child Protection.

Hon. J. G. Gardiner (North Qu'Appelle), Minister of Highways and Minister in charge of the Bureau of Labor and Industries.

Hon. J. M. Uhrich (Southern), Provincial Secretary and Minister in charge of the Bureau of Public Health.

The realignment of portfolios among the old members gives Mr. Hamilton two important departments, agriculture and municipal affairs.

Mr. Dunning, in addition, to being premier and president of the council, retains his former portfolio of provincial treasurer and adds to that the department of railways, temporarily held by Mr. Martin since the retirement of Mr. Knowles.

Mr. Latta continues as minister of education and will supervise the bureau of publications and the office of King's printer. He has been in charge of the last two branches of work for some time, though the publications branch does not become a

HON. CHAS. DUNNING,
Premier of Saskatchewan

bureau until May 1, under the act passed at the last session of the House.

The important office of attorney-general held by Mr. Martin passed over to one of the new members of the Government, Col. J. A. Cross, of Regina City, who will add to his duty the work of supervising the newly created bureau of child protection, though, like the bureau of publications, the latter does not become effective until May 1.

Hon. J. G. Gardiner, another new member of the Government, succeeds Hon. Chas. Dunning as minister of highways, and takes over from Mr. Dunning supervision of the bureau of labor and industries.

The provincial secretaryship, which has been given to the third new member, Dr. J. M. Uhrich, of Rosetown, was formerly held by Hon. W. E. Knowles, and upon the latter's retirement was temporarily held by Mr. Dunning. Dr. Uhrich will also have charge of the bureau of public health, formerly supervised by Mr. McNab.

Only Formal Notice to France About Payments

London.—The British note to France concerning interest on France's debt to Great Britain, it was authoritatively explained, was not an actual demand for payment of interest but a formal notice that the three-year suspension of interest having expired, Great Britain resumes freedom of further action. Certain countries, it was said, notably Italy and Rumania, were promised two months' notice on any required cash payments, and as Great Britain starts payment to the United States in October, it became necessary that notice should be given.

German Tax Scheme Approved

Finance Minister Says Burden Imposed is Without Parallel

Berlin.—"No nation ever wrote taxation legislation of such magnitude on its statute books as does Germany now that the Reichstag has given its final approval to the Government tax scheme," said the finance minister, Andreas Hermes, to the deputies, in thanking them after the conclusion of the third reading of the measures which approves a compulsory loan, of one billion dollar marks and the adoption of which automatically makes effective fourteen major tax laws.

"Herr Hermes declared the tax burden imposed on the German people was without parallel in history and would demonstrate to the world that the German people were prepared to assume the financial obligations growing out of the last war.

The taxation law, which received the Reichstag's final approval have been in the making for more than a year, yet hardly anyone in Germany possesses even an approximate idea of the extent to which the individual is affected directly or indirectly by the various taxes which the Government's experts have devised in an attempt to discover previously unlooked for sources for revenue.

Druggists Kept Busy With Liquor Sales

Manitoba Stores Sell 510,993 Gallons Since Prohibition Came in Force

Winnipeg.—A total of 1,211,161 prescriptions have been issued and 510,993 gallons of liquor sold through drug stores in Manitoba since prohibition came into force, according to information tabled in the Legislature by Hon. Thos. Johnson, attorney-general.

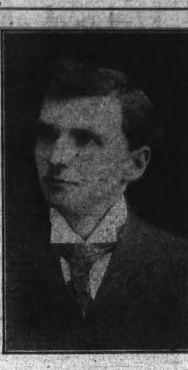

The number of prescriptions issued monthly since the 12 ounce law came into effect has decreased very little. In January of this year, there were 16,281 prescriptions issued and 1,406 gallons of liquor sold through the official channels.

Predicts Lower Rates

Winnipeg.—Lower freight rates in certain directions will be ordered by the railway commission to take effect in the prairie provinces as a result of the claims put forward recently by representatives of Western Canada. H. J. Symington, K.C., stated here on his return from Ottawa, Mr. Symington represented Manitoba at the freight rates hearing in Ottawa.

Buenos Aires.—Laurence Glimel, who came here last year as an envoy from the Dal Eileann seeking recognition of the Irish republic, has closed the "negotiation" here and sailed for Ireland.

Pay Last Tributes To Sir John C. Eaton

Public Demonstration of Mourning in Toronto

Toronto.—All classes of the community from shopgirls and laborers to legislators and members of the judiciary, gathered to pay last tributes to the memory of Sir John C. Eaton, whose body was laid to rest in the family mausoleum, a stately structure of Scottish gray granite in Mount Pleasant Cemetery here. Representatives of the Federal Parliament, the Ontario Legislature, Toronto city council, the military, the judiciary, the universities, the hospitals and practically all religious denominations attended the funeral service in the Timothy Eaton Memorial Methodist Church, and followed the remains to the cemetery.

Toronto perhaps never before witnessed such a public demonstration of mourning for the passing of one of her citizens. It is estimated that 50,000 people at one time were bunched in the vicinity of the church, waiting for an opportunity to enter. The procession was uninterrupted for four and a half hours when the doors closed to prepare for the funeral service. Four prominent ministers, representing different denominations, had a part in the service, including the pastor of the Eaton Memorial Church, Rev. C. A. Williams.

Celebrate Canada Week

New York.—The Kiwanis Club of New York celebrated the International Kiwanis Club United States-Canadian week at a luncheon held with a large and representative attendance. The object of the week is to promote in each country a better understanding of each other. Everyone present was supplied with a booklet descriptive of Canada.

Japanese Delegates to Genoa

Tokio.—The appointment of Baron Hayashi, ambassador to Great Britain, Viscount Ishii, ambassador to France, and Kogo Mori, financial commissioner in London, as the Japanese delegates to the Genoa conference, has been officially confirmed. Baron Hayashi will head the delegation.

Sailor Drowned

St. John N.E.—While the C.P. steamer Tupiatic was en route to this port from Glasgow, Scotland, a young Scottish sailor named Innis fell overboard and was drowned. He was a native of Glasgow and married.

Believe Farmers Would Get Maximum Returns Under Wheat Board

May Defer Action On St. Lawrence Scheme

Ottawa.—While there is no official announcement that the Government has advised Washington authorities of a desire that the St. Lawrence-Great Lakes ship canal project be postponed, such postponement is said to be in line with the policy of the present administration at Ottawa. Recently information was given a delegation that the Government had no immediate intention, in view of the necessity of curtailing expenditure as much as possible of recommending the necessary appropriations to parliament. So far the only step taken in the House of Commons has been the tabling of the report made by the International Waterways Commission.

Want British Embargo Removed

Alberta Breeders Also Urge Reciprocal Trade With States

Calgary, Alta.—At the annual meeting of the Alberta Cattle Breeders, held here, resolutions were passed urging the Dominion Government to open negotiations with the American Government for reciprocal trade relations in livestock and livestock products and to continue to press for the removal of the British embargo against the entry of Canadian cattle. It is especially asked that pending the removal of the embargo, arrangements be made for shipment of Canadian fat cattle for slaughter, to interior points in Great Britain under a permit system, thus making it possible to have Canadian beef offered to the British consumer as fresh killed beef.

The association went on record as in favor of the dehorning of all commercial cattle.

"Transportation problems took up considerable attention at the hands of the cattle breeders. A resolution was passed asking for further reduction in rail and ocean transportation costs.

Another request went to the railway companies asking that through mileage rates be allowed feeders who wish to ship stocker cattle and sheep into feeding areas for a 120-day period and then send them on to market.

Settlers for Western Canada

Winnipeg.—Western Canada recently welcomed the first contingent of its 1922 army of settlers when 250 persons—men, women and children—arrived here. Three hundred of the immigrants were from Europe and 50 from Russia and Minnesota. All the settlers will go on the land. Manitoba's share of these settlers was a farmer group of 111 persons. Additional parties were bound for Saskatchewan, Alberta and British Columbia.

Rate War in Progress

Washington.—Prospect of an aggressive steamship rate war at Vancouver affecting all commodities carried between Canada and the Orient was reported to the Department of Commerce by American Consul-General Ryder at Vancouver.

Track Meet in Saskatoon

Saskatoon.—Annual track and field meet of the Saskatchewan Branch of the A.A.U. of C. has been awarded to Saskatoon. The tournament will be held in June. It is the first provincial amateur track meet since 1912.

Japanese Bank Assigns

Vancouver.—The Nippon Kaibyo Shu, Limited, a Japanese bank here operated under a provincial trust company charter, has closed its doors. An assignment has been made. Assets are said to be about \$225,000 and the liabilities, \$240,000.

Government May Appoint New Commission For Federal Grain Inquiry

Ottawa.—It is not the intention of the Government to continue the Federal Grain Inquiry commission as at present constituted. This information was given to the House by Hon. J. A. Robb, minister of trade and commerce, in answer to a question asked by Hon. H. H. Stevens.

That there might be a new commission appointed, however, was indicated when Mr. Robb stated that there was an appropriation in the estimates for 1922-23 to defray the expenses of such a commission.

Ottawa.—The farmers of Western Canada have no confidence in the present open grain market system, declared James Robinson, second witness for the Canadian Council of Agriculture, in his evidence before the committee on agriculture. At present options on wheat were sold before the wheat was in the ground. Clerks, storekeepers, laborers and preachers gambled in wheat options and got their profits out of the farmers' prices. Under a wheat board, the witness believed, the farmer would get the maximum return from his produce.

When the wheat board was formed in 1919 there had been an impression prevalent that the board was formed, to keep the prices down. The farmers had started out prejudiced against the board, but from experience had learned to have confidence in it. Mr. Robinson had not met a farmer in Manitoba or Saskatchewan this year who was not anxious to see the board re-established.

"The farmers want to see the profits come into their own pockets, instead of going to speculators," continued Mr. Robinson. Reorganization of the wheat board would bring about intelligent marketing. The market would not be glutted, and the consumer would not be called on to pay any more for wheat.

Answering Thomas Sales (Saltcoats), Mr. Robinson said that in 1919 it took three bushels of wheat to buy a sack of flour when both were controlled. On last year's price it took one bushel of wheat to buy a sack of flour.

"Conditions in the west have been serious for the past two years; agricultural products are selling for less than the cost of production." The witness, who was in Saskatoon, said our farmers are bankrupt.

This was a summary of the western farmers' conditions as outlined by H. H. Wood, representing the Canadian Council of Agriculture. Western farmers called for re-establishment of the wheat board because they believed they would get better prices for their wheat. Mr. Wood believed the wheat board would add \$25,000,000 to the farmers' income by handling this year's product.

Farmers did not ask a fixed price, but they believed that the wheat board method would give them an even break in marketing their wheat. The crop would be controlled in its flow to the market rather than being dumped on the market at a dropping time in order that the farmers might meet debts.

Attempted Bank Robbery

Winnipeg.—A successful attempt was made by two young men to rob the branch of the Bank of Nova Scotia at St. James, a suburb of this city. One of the bandits fired at R. W. Dole, the teller, who gripped the revolver on being commanded to throw up his hands. His head was grazed above the ear. The two men escaped.

Naval Competition Ended

London.—Lord Lee of Darnley, first lord of the admiralty, in an address before the institution of Naval Architects, dwelt on the Washington armament conference with regard to the navies of the world. The Washington conference, said Lord Lee, "has not ended navies; but it has taken all the heart out of competition."

Rate War in Progress

Washington.—Prospect of an aggressive steamship rate war at Vancouver affecting all commodities carried between Canada and the Orient was reported to the Department of Commerce by American Consul-General Ryder at Vancouver.

Track Meet in Saskatoon

Saskatoon.—Annual track and field meet of the Saskatchewan Branch of the A.A.U. of C. has been awarded to Saskatoon. The tournament will be held in June. It is the first provincial amateur track meet since 1912.

Japanese Bank Assigns

Vancouver.—The Nippon Kaibyo Shu, Limited, a Japanese bank here operated under a provincial trust company charter, has closed its doors. An assignment has been made. Assets are said to be about \$225,000 and the liabilities, \$240,000.

Has Faith in Future

King George Says People Will Overcome Present Conditions

London.—"I am strong in my faith that the patience and energy of the people, combined with a spirit of confidence and good understanding among all classes will overcome the distressing conditions which have prevailed during the past years."

This is the text of a message which His Majesty the King sent to the Associated Chambers of Commerce at its meeting here.

Right Hon. Stanley Baldwin, president of the Board of Trade, announced that the coal trade had been put on an economic basis and in the past few months had regained an export trade which no man thought possible a short time ago.

Angora Accepts Peace Terms

Constantinople.—The Turkish Nationalist Government at Angora has accepted with reservations the armistice propositions recently made by the Allies, the Allied powers' representatives here have been informed.

Mounted Police To Be Excluded From Scope Of Military Organization

Ottawa.—After further discussion the bill to create a department of national defense went through committee stage in the House and stands for third reading. An important amendment excludes the Royal Canadian Mounted Police from the scope of the bill and the new department will, therefore, comprise the militia, naval and air force.

When the bill was last before the House, objection was made to the inclusion of the Canadian Mounted Police on the ground that it was essentially a civil organization. Hon. George P. Graham, who was in charge of the bill, himself moved the amendment and it was carried without objection. Another amendment made affects the superannuation allowance of officers to be retired. The original bill authorized the Government in such cases to add from one to three years to the actual term of service. An amendment reduced the years which

they may be added to from one to two years.

Plans for the retention of experienced and highly trained military officers were made in the course of the committee discussion.

When the clause providing for the inclusion of the Royal Canadian Mounted Police in the amalgamation of departments came up, Hon. Mr. Graham stated that there appeared to be a difference of opinion in the House as to whether this department should be included. He was not inclined to combat the view that it would be unwise to take in the Mounted Police, but he warned the House that it would be impossible to effect as great economies through amalgamation if this department was excluded. He was aware that many members were of the opinion that the Mounted Police force should be greatly decreased and confined to the unorganized territories, but he questioned whether police work could be left to the provinces at present.

Labor has only one side, made up of two "blocks"—J. S. Woodworth and Bill Irvine.

Solicitors Gray and Harris were in town from Lethbridge yesterday.

The members of the local Robekah Lodge are holding their regular fortnightly whist drive tonight.

Sir John Eaton, president of the T. Eaton Co., died at Toronto on Thursday night last at the age of forty-six years.

Robert White, grand organizer of the I. O. F., was in Coleman last week, where he addressed a very enthusiastic meeting of Orangemen.

W. J. Mulholland, who pitched ball for Blairmore last season, is now in Cardston in the employ of the United Irrigation project and will likely be used by the Cardston baseball club this season.

"Bo" Drain is mourning the loss of Tim. Tim was a lovable creature, but like most of the nice girls who are made a lot of nowadays he became very nervous. He wiggled to his death.

The annual Roll Call of Crowview Robekah Lodge 66, I. O. F., will take place in the Blairmore Community hall on the night of Thursday next, April the 20th, when it is hoped that all who can will be present to answer the call and those at a distance, who cannot be present, will send greetings.

Girls in an Eastern city recently raised \$10,000 for a hospital by selling kisses at one dollar apiece. Probably if the girls of this neck of the woods received that much for kisses administered since the first of the year there would be so much funds available that no local organization would be laboring under a deficit at the present time. More likely there would be enough to finance the proposed water system for Coleman and then leave a balance to help buy complimentary tickets for next season at the local arena.

The Lundbreck Golf Club held their first grand concert and dance on Friday evening last in the public school. The affair was a decided success. A large crowd filled the hall, including quite a number of Cowley people. The concert was excellent—all local talent, including songs and acts of a most artistic character, supported by Almond's orchestra and other musicians. The committee anticipates another play and dance in the month of May, in honor of the opening of the golf course. The chair on Friday night was occupied by A. McCulloch, J. P.

An application was made before Mr. Justice Walsh on Monday morning to estreat the bail of Angelo Altamero, of Blairmore, who failed to surrender himself for trial on the charge of selling liquor. The application has been granted and the bail must now be forfeited. Altamero was let out on bail about January last, bail having been, allowed, \$500 on Altamero's own surety and \$250 each by C. F. Harris and F. Tunell. Since then Altamero has disappeared and has not been heard from. The case arose out of a raid made by Sergt. Nicholson on the bar of the Alberta hotel, where liquor was found and confiscated. Altamero was the alleged proprietor of the bar at that time.

The man who sees the other fellow's side as well as his own doesn't have so many chances to get mad, but he is likely to swing an awful wallop when he does start.

M. Bolecky and A. McLeod were visitors to Lethbridge yesterday. Mrs. Gwilym Ryans spent a few days last week with friends in Lethbridge.

Frank Patera, well known Bohemian miner, is lying critically ill at the local hospital.

W. D. Spence, of the provincial revenue department, was in town from Edmonton on Tuesday.

Mrs. S. H. Kietruck, of Prince Albert, spent a few days of this week in town and returns to Calgary tonight.

Rev. G. D. Armstrong, who had been here over Sunday and Monday, returned to Macleod on Tuesday morning.

Steve Metro, of Granum, pleaded guilty to the charge of stealing a horse and was sentenced to one year imprisonment with hard labor.

Severe winter in the Alps is said to have driven the bears into towns—and it doubtless keeps many of the bears inside the hotels.

Detroit turns out more stoves than any other United States city. Fifty million pounds of metal are used annually, and the average output is 400,000 stoves.

J. L. Parker, of Burmis, well-known mining engineer, has accepted the appointment of manager of the Balkan coal mine at Minehead, near Coalpur.

A kid at the local school remarks: "For real slush, take a glance at the articles under the 'People's Forum' heading on page four of Tuesday's Lethbridge Herald."

Elmer Ainsworth, who for several years has been in charge of government road work through the Southern part of the province, has been transferred to Red Deer. He is succeeded in the south by Mr. Keith.

A Slavonian named Martin Ulvach was found to be in possession of a complete outfit for the manufacture of moonshine near Bellevue, and comes up for trial at Bellevue tomorrow before Justice Gresham.

Maritime Provinces Oddfellowship has been offered a free site at Truro, Nova Scotia, for the establishment of an Oddfellows' Home. The town of Truro has also offered free water and exemption from taxes. The site is quite near town and comprises six acres, behind which is a large wooded area.

The school district assessment notices are being circulated this week.

NOTICE

The West Canadian Collieries, Limited, would like to have a photograph (in uniform) of all employees who served overseas. Please hand photos in to Blairmore or Bellevue Offices. Photos will be returned to owners after a copy has been obtained.
